

Keep your business up and running with wireless backup

AT&T Internet Backup added to your AT&T Dedicated Internet service helps you:

- Protect your business in the unlikely event of a power or service outage
- Keep mission-critical devices up and running, such as credit card and point-of-sale machines
- Continue working with a backup router that includes up to 12 – 24 hours of battery backup
- Revert to normal operation once the connection is restored
