The sunsetting of 2G/3G is happening, and it has created an urgency for businesses to map their plans for migration. You need to prepare NOW for when the 2G and 3G networks go dark. If you are already working on a migration roadmap, your business will be uniquely positioned for growth opportunities when the 2G/3G sunset occurs.

AT&T is one of the largest suppliers of 4G/5G technology and services. Our consultants know how to integrate an intelligent ecosystem of connectivity, technology, and expertise to help you gain

Migrate to 4G with expertise from AT&T:

- Simplify your migration with end-to-end solutions
- Control costs with a full-service solution
- Help optimize migration with a custom POC

Professional Services for IoT from AT&T provides:

- Market and technology landscape assessment
- Fully managed POC and migration
- Data integration and modern web services architecture

Keep your business moving forward and migrate to 4G technologies now
AT&T is one of the largest suppliers of 4G/5G technology and services. Our consultants can integrate an intelligent ecosystem of connectivity, technology, and expertise to help you gain actionable insights for your business. We can spearhead a process to generate roadmaps to enable informed ‘build vs. buy’ decisions, rank nonproprietary IoT hardware options, and implement process improvements. AT&T technologies and expertise can help interconnect the features of your digital landscape so that you can optimize your business and bottom line.

For more information about how AT&T can help you migrate from 2G/3G technologies, please contact your IoT Business Development Manager or call 1-877-265-2118 for a sales rep.
