Plans also include AT&T ActiveArmor<sup>SM</sup> mobile security (including spam and fraud call blocking)\*.

Additional one-time Fees may apply. See [att.com/mobilityfees](http://att.com/mobilityfees) for more details. **VOICE:** For use in the United States (**Domestic Coverage Area** or **DCA**) only. Voice usage will be counted against minutes included in the plan (as applicable, depending on the type and time of the call) in the following order: Mobile-to-Mobile Minutes, then Night & Weekend Minutes, and then the included Anytime Minutes (**Anytime Minute Allowance**). **Mobile-to-Mobile Minutes:** For use only when directly dialing or receiving calls from any other AT&T wireless phone number from within the DCA. Mobile-to-Mobile Minutes may not be used for interconnection to other networks or calls to directory assistance, AT&T voicemail, and call routing/forwarding numbers. **Night and Weekend Minutes:** For use from 9 pm to 5:59 am Mon.-Fri. and on weekends 9 pm Fri. to 5:59 am Mon. **Voice Overage:** If you exceed your plan's Anytime Minute Allowance during your billing period, you will be charged automatically for additional minutes of use at a pay-per-use rate of \$0.25 per minute. **POOLED ANYTIME MINUTES:** Plans include Anytime Minutes pooling at a billing account (**BAN**) level. Within each BAN, all CRU lines activated with AT&T Business Pooled Nation plans that have BAN-level pooled Anytime Minutes and the same Voice Overage rate will be combined to create a Business Pooled Nation pool for Anytime Minutes (each, an **Anytime Minutes Pool**). No other plans can be part of the Anytime Minutes Pool. With regard to each such Anytime Minutes Pool and during each billing cycle, each CRU line first uses its plan's included minutes. If a CRU line does not use all of its Anytime Minutes Allowance, an underage is created in the amount of the unused Anytime Minutes Allowance (**Under Usage**). If a CRU line uses more than its plan's Anytime Minutes Allowance, the CRU line incurs Voice Overage charges in the amount of the excess Anytime Minutes (**Over Usage**). At the end of the billing cycle, AT&T calculates the total Under Usage and Over Usage amounts for all CRU lines in the Anytime Minutes Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount (and the Over Usage is greater than zero), the Under Usage is allocated among CRU lines in the Anytime Minutes Pool with Over Usage, resulting in per line credits on your invoice equal to each such CRU line's Voice Overage charges. Any remaining Under will be forfeited. If the total Over Usage amount exceeds the total Under Usage amount (and the Under Usage is greater than zero), then the total Under Usage is divided by the total Over Usage to create an allocation factor that is applied equally to each CRU line's Voice Overage charges to determine each such CRU line's share of the total Under Usage amount, resulting in per line credits on your invoice to partially offset each such CRU line's Voice Overage charges. For example: if an Anytime Minutes Pool has 100 minutes of Under Usage and 1,000 minutes of Over Usage (which means an allocation factor of 10%), then your invoice will show, with respect to each CRU line in the Anytime Minutes Pool with Over Usage, both (a) the CRU line's Voice Overage charges at the specified Voice Overage rate, and (b) a bill credit equal to 10% of the CRU line's Voice Overage charges. Migrating CRU lines to different plans during a bill cycle may result in one-time prorations or other impacts to the credit calculation. **Limits: You are limited to one Anytime Minutes Pool for Business Pooled Nation plans per BAN.** Your BAN may also have one or more voice service pool(s) for CRU lines on different voice plans, but CRU lines in an Anytime Minute Pool cannot take advantage of any other voice service pool's Under Usage and vice versa. Each CRU line can only be part of one voice service pool at a time. AT&T reserves the right to limit the number of CRU lines in an Anytime Minute Pool due to business needs and system limitations. For the avoidance of doubt, CRU lines on prior versions of AT&T Business Pooled Nation plans, including but not limited to AT&T Business National Pooled Plans and AT&T Business Local Pooled Plans, are not included in any Anytime Minutes Pool for Business Pooled Nation plans. **AT&T ACTIVEARMOR<sup>SM</sup> MOBILE SECURITY:** Requires compatible device, download of ActiveArmor app and acceptance of terms of service (see [att.com/legal/terms/mobileSecurityEULA.html](http://att.com/legal/terms/mobileSecurityEULA.html)). Data charges may apply to app download/usage. **Spam & fraud call blocking:** May not detect all threats. May inadvertently block wanted calls; settings can be adjusted in the app. Mobile Security is not available when roaming internationally. Details at [att.com/security/security-apps](http://att.com/security/security-apps). **AT&T CALLER ID:** Requires compatible device. **MESSAGING & DATA SERVICES: Monthly plan prices do not apply to any data or messaging services within the DCA.** A domestic data plan (purchased separately) is required for all smartphones. If you use data and/or messaging services in the DCA without separate data and messaging plans, the following pay-per-use rates will apply: text messages – 20¢ per message; picture/video messages – 30¢ per message; data – \$0.001953125 per KB. **INTERNATIONAL: Monthly plan prices do not apply to calls, texts or data use while outside the DCA (international roaming) or to calls or texts from the DCA to numbers outside the DCA (international long distance).** Pay-per-use rates will apply to such international usage unless you add an appropriate international package (sold separately) to your line. For current international roaming pay-per-use rates, see [att.com/intlppurates](http://att.com/intlppurates).
