

Prioritizing your safety

We're closely monitoring COVID-19 developments and taking the necessary preventative measures to help maintain guest and employee safety.

Vaccine Policy

All visitors must be fully vaccinated to enter an AT&T work location. Proof of vaccination is required upon entry.

Cleaning

Meeting spaces and high-traffic areas are regularly cleaned and disinfected per CDC guidance.

Entry Assessment

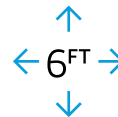

For your convenience, please complete a short [entry assessment](#) prior to arrival.

If you are unable to complete the assessment in advance, please allow extra time to complete the onsite screening process upon entering the building.

Catering

Catering options have been modified to ensure your safety and to adhere to new sanitation requirements.

Social Distancing

Social distancing is required for all guests. Briefing rooms and open common areas are set up to accommodate as needed.

Face Coverings

Face coverings are required for AT&T personnel and all guests regardless of vaccination status. AT&T will provide face coverings, or guests may wear their own.
