

# Wireless data designed with your business essential applications and budget in mind

AT&T Wireless Broadband plans provide **mobile broadband internet access** that can give your company's business connectivity the boost it needs<sup>1</sup>

## Wireless isn't just for smartphones anymore. It's evolved to help enterprises increase their network efficiency, agility, and control at nearly every level.

Whether it's used as the primary or failover service, AT&T Wireless Broadband plans can provide a cost-effective network alternative for business critical applications, a diverse backup option for business data applications, and a quick deployment option for new and remote business locations, including work from home.

- Get the additional bandwidth you need to run your most important business applications, including point-of-sale, electronic time clocks and cloud-based applications.
- Get connectivity for your business apps up and running when wireline options aren't available.
- Create a diverse, lexible, and manageable business network connection using cellular. All plans include access to AT&T 5G/5G+ services, where available.<sup>2</sup>

<sup>1</sup> AT&T Wireless Broadband is not intended for continuous video streaming, web hosting, or public or guest Wi-Fi and may not be used in any manner prohibited under your Business Agreement (see prohibited network uses/activities at [att.com/abs-addtl-terms](http://att.com/abs-addtl-terms) and [att.com/aup](http://att.com/aup)). When used indoors, AT&T Wireless Broadband also requires sufficient in building cellular coverage for optimal performance.

<sup>2</sup> Requires a compatible 5G and/or 5G+ device and plan. May not be available in your area. 5G+ is available only in very limited parts of select cities. See [att.com/5Gforyou](http://att.com/5Gforyou) for coverage details. Other restr's apply. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G and/or 5G+ services.

<sup>3</sup> Requires a compatible 5G and/or 5G+ device. May not be available in your area. 5G+ is available only in very limited parts of select cities. See [att.com/5Gforyou](http://att.com/5Gforyou) for coverage details. Other restr's apply.

<sup>4</sup> Video typically streams at standard definition. Content bundled with video may be slow to load. Go to [att.com/myatt](http://att.com/myatt) or [att.com/premier](http://att.com/premier) to change your settings to view in higher definition. Details at [att.com/VideoFeature](http://att.com/VideoFeature).

<sup>5</sup> Feature is available (up to applicable feature allowance) for eligible data originating on and traveling over the AT&T-owned domestic 4G LTE network. Feature does not prioritize your data ahead of all other data, which may receive similar or higher priority level, or provide priority network access or preemption capabilities. Other restr's apply.

## Features

- All AT&T Wireless Broadband plans can be used with a 4G LTE or 5G and/or 5G+ device<sup>3</sup>
- Additional features include:
  - High Definition video streaming (with Video Management feature turned off)<sup>4</sup>
  - An AT&T Business Fast Track allowance, which enables a differentiated (enhanced versus "best effort") network experience for eligible business data originating on and traveling over the AT&T-owned domestic 4G LTE network – a benefit when the network is congested<sup>5</sup>

## Benefits

- Fast, highly-reliable connections for business critical applications
- Predictable monthly charges

AT&T Wireless Broadband plans can also help you keep your bottom line in check. Our plans are based on maximum speeds, not on the amount of data you use, so there are no overage charges. Whether you are a large enterprise looking for a plan with a higher maximum speed to support a lot of business-critical data or a small to mid-sized business needing lower maximum speeds to support a few business applications, your bill is predictable from month-to-month.

### Check to see if AT&T Wireless Broadband is right for your location

When used with a router or mobile hotspot device in an indoor location, AT&T Wireless Broadband also requires sufficient in building cellular coverage for optimal performance. As a result, AT&T strongly recommends that you assess your location's in building coverage before purchasing one of our AT&T Wireless Broadband plans for indoor use. Please note that cellular coverage is not available everywhere and is not guaranteed. Additionally, indoor coverage will differ from outdoor coverage. You are responsible for confirming that AT&T Wireless Broadband will meet your connectivity needs at your desired location.

### Choose how you use your AT&T Wireless Broadband

**Primary connection.** AT&T Wireless Broadband can provide a cost effective, readily deployable cellular connection for branch or remote offices where lack of wireline service or the high costs of special construction limit your options.

**New technologies.** Using AT&T Wireless Broadband as a dedicated connection for new applications enables your business to adopt new technologies that can help you innovate without adding unnecessary congestion to your wireline network.

**Network augmentation.** Establish an active-active network with your business essential applications like timekeeping and point of sale riding the AT&T wireless network with AT&T Wireless Broadband, and your high-usage applications like public Wi-Fi and streaming services riding your wireline connection.

“Always-on” failover. Why would you pay for a backup network connection and then not use it regularly? AT&T Wireless Broadband offers a highly reliable and diverse internet access option that can serve your day-to-day data needs and function as a secondary connection in the event your primary connection fails. In the event of a wireline outage, you can switch those connections to AT&T Wireless Broadband.

## Wireless data plans designed with your business-essential applications and budget in mind.

### Choose an AT&T Wireless Broadband plan for your eligible router or mobile hotspot device

Monthly plan prices below are after AutoPay and paperless bill discount.\*

With 3 plan options to choose from, all with no overage charges, how will you put AT&T Wireless Broadband to work for your business?

| Plan <sup>1</sup>                          | Monthly service charge* | Data      | Data restrictions  | AT&T Business Fast Track allowance <sup>3</sup> |
|--|-------------------------|-----------|--|---|
| AT&T Wireless Broadband Core               | \$65                    | Unlimited | Data speed up to 25 Mbps. After 100GB, AT&T may temporarily slow data speeds if the network is busy  | 15GB  |
| AT&T Wireless Broadband Pro <sup>2</sup>   | \$75                    | Unlimited | Data speed up to 50 Mbps. After 125GB, AT&T may temporarily slow data speeds if the network is busy  | 30GB  |
| AT&T Wireless Broadband Ultra <sup>2</sup> | \$95                    | Unlimited | Data speed up to 100 Mbps. After 175GB, AT&T may temporarily slow data speeds if the network is busy | 50GB  |

**Fees extra.**

\* **Advertised monthly pricing is only for new plans currently offered to customers as of February 15, 2023.** Brochure does not reflect retired plans available prior to that date. **What you will see on your bill:** Advertised monthly pricing includes (a) a monthly plan charge for data service (\$70, \$80, or \$100, depending on the plan), and (b) a \$5 monthly discount when enrolled in both AutoPay and paperless billing, which starts within 2 bills after enrollment.

<sup>1</sup> Data throughput speeds are capped at a maximum available data speed, which may not provide you with the highest speed available in a location at a specific point in time. **Each plan's "up to" data speed is not guaranteed to be your actual speed. Actual speeds vary and may be affected by a number of factors, including your proximity to a cell site, the capacity of the cell site, the number of other users connected to the same cell site, the surrounding terrain, AT&T network management practices, the applications you use, and your in building coverage.**

<sup>2</sup> Data throughput speeds of up to 50 Mbps and up to 100 Mbps require a wireless router or mobile hotspot device with a Category 18 or higher modem and use where enhanced AT&T 4G LTE-Advanced service or 5G and/or 5G+ service is available.

<sup>3</sup> Feature is available (up to applicable feature allowance) for eligible data originating on and traveling over the AT&T-owned domestic 4G LTE network. Feature does not prioritize your data ahead of all other data, which may receive similar or higher priority level, or provide priority network access or preemption capabilities. Other restr's apply.

■ AT&T domestic coverage    ■ No service area

Map shows approx. outdoor coverage in domestic licensed/roaming areas. Actual coverage may differ. Service not avail. everywhere. See [att.com/coverageviewer](http://att.com/coverageviewer) for coverage details. For add'l info on 5G/5G+, see [att.com/5Gforyou](http://att.com/5Gforyou).

**AT&T WIRELESS BROADBAND CORE, AT&T WIRELESS BROADBAND PRO AND AT&T WIRELESS BROADBAND ULTRA PLANS:** Available only to business and government customers with a qualified wireless service agreement that includes, without limitation, the Additional Service and Equipment-Related Terms found at [att.com/abs-addtl-terms](http://att.com/abs-addtl-terms) (Business Agreement). For Corporate Responsibility User (CRU) lines of service only. **All wireless services are subject to the terms and conditions of your Business Agreement. AT&T Wireless Broadband is not intended for continuous video streaming, web hosting, or public or guest Wi-Fi and may not be used in any manner prohibited under your Business Agreement (see prohibited network uses/activities at [att.com/abs-addtl-terms](http://att.com/abs-addtl-terms) and [att.com/aup](http://att.com/aup)).** **AVAILABILITY:** When used indoors, plans require sufficient in-building cellular coverage to work optimally. AT&T does not guarantee the sufficiency of in-building coverage at a specific location. **DEVICES:** Plans are limited to one CRU line and require a qualified data-only wireless router or mobile hotspot device (sold separately) using business applications. **PRICING:** Monthly price includes a monthly plan charge for data service (\$70, \$80, or \$100, depending on the plan). **AutoPay and Paperless Bill Discount:** \$5 discount is applied to the monthly plan charge when account is active and enrolled in both. Discount starts within 2 bill cycles. Pay full plan cost until discount starts. **OTHER RESTRICTIONS AND FEES:** **Activation/upgrade fee** per line (up to \$50) and deposit may apply. Credit approval may be required. If you purchased a device that requires a term commitment, an **Early Termination/Cancellation Fee** applies if you cancel service after the first 30 days and before your term ends. See [att.com/returns](http://att.com/returns) for details on what fee may apply for your device and how the fee is prorated over time. AT&T reserves the right to suspend or terminate service to your account, place any noncomplying device on an appropriate plan, and/or add any other required element of a plan. **ADDITIONAL MONTHLY FEES AND TAXES:** Apply per line and include Regulatory Cost Recovery Charge (up to \$1.50), Administrative Fee (up to \$1.99), Property Tax Allotment surcharge (\$0.20-\$0.45) and other AT&T fees which are not government-required surcharges, as well as government taxes. Additional one-time Fees may apply. See [att.com/mobilityfees](http://att.com/mobilityfees) for more details. **UNLIMITED DATA:** For use in the United States (Domestic Coverage Area or DCA) only. All AT&T service is subject to AT&T network management policies. See [att.com/broadbandinfo](http://att.com/broadbandinfo) for details. Tethering/mobile hotspot use is allowed with compatible devices. **DATA SPEEDS:** **AT&T Wireless Broadband Core has a maximum data speed of 25 Mbps, AT&T Wireless Broadband Pro has a maximum data speed of 50 Mbps, and AT&T Wireless Broadband Ultra has a maximum data speed of 100 Mbps.** 50 Mbps and 100 Mbps maximum data speeds are not available in all coverage areas and require (a) a device capable of using enhanced AT&T 4G LTE-Advanced technologies or 5G/5G+ service and (b) use where those respective services are available. Speeds vary, may be affected by a number of factors, and are not guaranteed. **DATA RESTRICTIONS:** After data usage on a line reaches its plan's applicable data usage threshold in a bill cycle, or the remainder of the cycle AT&T may temporarily slow data speeds on that line if the network is busy. The applicable data usage threshold is 100GB for the AT&T Wireless Broadband Core plan, 125GB for the AT&T Wireless Broadband Pro plan, or 175GB for the AT&T Wireless Broadband Ultra plan. **VIDEO STREAMING:** Plan includes the Video Management feature. We aim to render streaming video in standard definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at [att.com/myatt](http://att.com/myatt) or [att.com/premier](http://att.com/premier). Details at [att.com/VideoFeature](http://att.com/VideoFeature). **5G SERVICE:** Requires compatible 5G device and plan. 5G service may not be available in your area. See [att.com/5Gforyou](http://att.com/5Gforyou) for coverage details. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G service. **5G+ SERVICE:** Requires compatible 5G+ device and plan. 5G+ service is only available in very limited parts of select cities. See [att.com/5Gforyou](http://att.com/5Gforyou) for cities. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G+ service. Other restrictions apply. **AT&T BUSINESS FAST TRACK:** Uses quality of service (QoS) network technology to provide a differentiated (i.e., enhanced versus "best effort") network experience for (depending on your selected plan) the first 15GB, 30GB or 50GB per month of eligible business application data traffic originating on and traversing over the AT&T-owned domestic 4G LTE network (excluding microcells, AT&T Wi-Fi service, and roaming partner networks), benefitting you during times of network congestion. **Usage Allowance:** Your Business Fast Track allowance is 15GB per month with the AT&T Wireless Broadband Core plan, 30GB per month with the AT&T Wireless Broadband Pro plan, or 50GB per month with the AT&T Wireless Broadband Ultra plan. After your Business Fast Track allowance is exhausted in a bill cycle, all data traffic will be handled on a "best-efforts" basis until the beginning of the next billing cycle. **Limitations:** Business Fast Track does not (a) prioritize data traffic ahead of all other data traffic (which may receive a similar or higher QoS), (b) provide priority access to available AT&T network resources, or (c) provide preemption capabilities. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict your access to Business Fast Track if your use of the feature is inconsistent with its intended use or the Business Agreement. **COVERAGE:** Coverage map may include areas that are served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Coverage is subject to change without notice. **OFF-NET USAGE:** Domestic and international off-net (roaming) data usage may be at 2G speeds. **Excessive Off-Net Usage:** You get an off-net (roaming) usage allowance for data service (see Business Agreement). If you exceed the allowance, your service may be restricted or terminated. **MISCELLANEOUS: International Roaming:** Monthly plan pricing does not apply to data usage while roaming. If roaming outside the DCA, international data usage will be charged at pay-per-use rates, found at [att.com/intlpprates](http://att.com/intlpprates), unless an international data package is added. For available international options, go to [att.com/internationalforbiz](http://att.com/internationalforbiz). Not all devices may be eligible for international roaming service.

**Business Agreement Discounts:** Plans are not eligible for any CRU service discount described in your Business Agreement.

All offers, promotions, pricing, terms, restrictions and conditions subject to change and may be modified, discontinued or terminated at any time without notice.
