Wireless data designed with your business essential applications and budget in mind.

AT&T Wireless Broadband can give your company’s business connectivity the boost it needs to handle today’s business data needs:

• Get the additional bandwidth you need to run your most important business applications, including point-of-sale, electronic time clocks and cloud-based applications. AT&T Wireless Broadband is not intended for use with, or as a substitute for, consumer internet services.¹

• Get connectivity for your business apps up and running when wireline options aren’t available.

• Create a diverse, flexible, and manageable business network connection using cellular. All plans include access to AT&T 5G low band spectrum (5G) and 5G mmWave (5G+) services, where each is available.²

AT&T Wireless Broadband plans can also help you keep your bottom line in check. Our plans are based on maximum speeds, not on the amount of data you use, so there are no overage charges. Whether you are a large enterprise looking for a plan with a higher maximum speed to support a lot of business-critical data or a small to mid-sized business needing lower maximum speeds to support a few business applications, your bill is predictable from month-to-month.

Please note that AT&T Wireless Broadband requires sufficient in-building cellular coverage for optimal performance.

¹ Plans are limited to use with business applications. Plans do not allow access to entertainment and other non-business websites that offer video or audio streaming services & may not be used for entertainment or surveillance video streaming, audio streaming, web hosting, or public or guest Wi-Fi.

² Requires a compatible 5G/5G+ device and plan. May not be available in your area. 5G+ is available only in very limited parts of select cities. See att.com/5Gforyou for coverage details. Other restrictions apply. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G/5G+ services.

Wireless isn’t just for smartphones anymore. It’s evolved to help enterprises increase their network efficiency, agility, and control at nearly every level. Whether it’s used as the primary or failover service, AT&T Wireless Broadband can provide a cost-effective network alternative for business-critical applications, a diverse backup option for business data applications, and a quick deployment option for new and remote business locations, including work from home.
Check to see if AT&T Wireless Broadband is right for your location:

For optimal AT&T Wireless Broadband performance, your location must have sufficient in-building cellular coverage. As a result, AT&T strongly recommends that you assess your location’s in-building coverage before purchasing AT&T Wireless Broadband. Please note that cellular coverage is not available everywhere and is not guaranteed. Additionally, indoor coverage will differ from outdoor coverage. You are responsible for confirming that AT&T Wireless Broadband will meet your connectivity needs at the installation address and in-building location you specify.

Choose how you use your AT&T Wireless Broadband:

**Primary connection.** AT&T Wireless Broadband provides a cost effective, readily deployable connection to your coverage qualified branch or remote offices where lack of wireline service or the high costs of special construction limit your options.

**New technologies.** Using AT&T Wireless Broadband as a dedicated connection for new applications enables your business to adopt new technologies that can help you innovate without adding unnecessary congestion to your wireline network.

**Network augmentation.** Establish an active-active network with your business essential applications like timekeeping and point of sale riding the AT&T wireless network with AT&T Wireless Broadband, and your high-usage applications like public Wi-Fi and streaming services riding your wireline connection.

**“Always-on” failover.** Why would you pay for a backup network connection and then not use it regularly? AT&T Wireless Broadband offers a highly reliable and diverse internet option that can serve your day-to-day data needs and function as a secondary connection in the event your primary connection fails. In the event of a wireline outage, you can switch those connections to AT&T Wireless Broadband.

---

### Potential Benefits

- Fast, highly reliable connections for business-critical applications
- Predictable monthly charges
- Efficiently and effectively connect your qualified site.

### Plan Features

All AT&T Wireless Broadband plans can support a 4G LTE or 5G/5G+ device.¹

Additional features include:

- High Definition video streaming (with Stream Saver turned off)²
- An AT&T Business Fast Track allowance, which enables a differentiated (enhanced versus “best effort”) network experience for eligible business data originating on and traveling over the AT&T-owned domestic 4G LTE network - a benefit when the network is congested³

---

¹Requires a compatible 5G/5G+ device. May not be available in your area. 5G+ is available only in very limited parts of select cities. See [att.com/5Gforyou](http://att.com/5Gforyou) for coverage details. Other restrictions apply.

²Plan includes Stream Saver, which allows you to stream in SD. AT&T will turn it on for you. You can turn it off at any time to stream in HD, when available. Restrictions apply. See [att.com/stream saver](http://att.com/stream saver) for details.

³Feature is available (up to plan’s allowance) for eligible data originating on and traveling over the AT&T-owned domestic 4G LTE network only. Feature does not prioritize your data ahead of all other data, which may receive similar or higher priority level, or provide priority network access or preemption capabilities. Not available on the 5G/5G+ network. Other restrictions apply.
Wireless data plans designed with your business-essential applications and budget in mind.

- Get the additional bandwidth you need to run your most important business applications.
- Get connectivity up and running for your router when wireline options aren’t available.
- Create a diverse, flexible, and manageable business network connection using cellular.

With 4 plan options to choose from, all with no overage charges, how will you put AT&T Wireless Broadband to work for your business?

Fees extra.

1 Advertised monthly pricing is only for new plans currently offered to customers as of July 30, 2021. Brochure does not reflect retired plans available prior to that date. What you will see on your bill: Advertised monthly pricing includes (a) a monthly plan charge for data service ($60, $85, $170 or $210, depending on the plan), (b) a monthly device access charge ($20) for access to such service, and (c) a $5 monthly discount when enrolled in both AutoPay & paperless billing, which starts within 2 bills after enrollment.

2 Data throughput speeds are capped at a maximum available data speed, which may not provide you with the highest speed available in a location at a specific point in time. Each plan’s “up to” data speed is not guaranteed to be your actual speed. Actual speeds vary and may be affected by a number of factors, including your proximity to a cell site, the capacity of the cell site, the number of other users connected to the same cell site, the surrounding terrain, AT&T network management practices, the applications you use, and your in-building coverage.

3 Plans are not intended as a substitute for consumer internet services. Accordingly, plans do not allow access to entertainment and other non-business websites that offer video or audio streaming services & may not be used for entertainment or surveillance video streaming, audio streaming, web hosting, or public or guest Wi-Fi.

4 Data throughput speeds of up to 50 Mbps and up to 100 Mbps requires a wireless router with a Category 18 or higher modem and use where enhanced AT&T 4G LTE-Advanced service or 5G/5G+ service is available.

5 Feature is available (up to plan’s allowance) for eligible data originating on and traveling over the AT&T-owned domestic 4G LTE network only. Feature does not prioritize your data ahead of all other data, which may receive similar or higher priority level, or provide priority network access or preemption capabilities. Other restrictions apply.
AT&T WIRELESS BROADBAND UP TO 12 MBPS, UP TO 25 MBPS, UP TO 50 MBPS, AND UP TO 100 MBPS PLANS: Available only to business and government customers with a qualified wireless service agreement including, without limitation, the Additional Service and Equipment-Related Terms found at att.com/abs-addtl-terms (Business Agreement). For Corporate Responsibility User (CRU) lines of service only. All wireless services are subject to the terms and conditions of your Business Agreement. DEVICES: Plans are limited to one CRU line and require a qualified data-only wireless router or mobile hotspot device (sold separately) using business applications. Device requires sufficient in-building cellular coverage to work optimally. AT&T does not guarantee the sufficiency of in-building coverage at a specific location. PRICING: Monthly price includes a monthly plan charge for data service ($60, $85, $170 or $210, depending on the plan) & a monthly device access charge ($20) for access to such service. AutoPay & Paperless Bill Discount: $5 discount is applied to the monthly plan charge when account is active & enrolled in both. Discount starts within 2 bill cycles. Pay full plan cost until discount starts. OTHER RESTRICTIONS & FEES: Activation/upgrade fee per line (up to $45) & deposit may apply. If you purchased a device that requires a term commitment, an Early Termination/Cancellation Fee applies if you cancel service after the first 30 days & before your term ends. See att.com/equipmentETF for details on what fee may apply for your device and how the fee is prorated over time. Credit approval may be required. AT&T reserves the right to suspend or terminate service to your account, place any noncomplying device on an appropriate plan, and/or add any other required element of a plan. ADDITIONAL MONTHLY FEES & TAXES: Apply per line & include Regulatory Cost Recovery Charge (up to $1.50), Administrative Fee ($199), Property Tax Allocation surcharge ($0.20-$0.45) & other fees which are not government-required surcharges, as well as taxes. Additional one-time Fees may apply. See att.com/mobilityfees for more details. UNLIMITED DATA: For use in the United States (Domestic Coverage Area or DCA) only. All AT&T service is subject to AT&T network management policies. See att.com/broadbandinfo for details. Tethering/mobile hotspot use is allowed with compatible devices. DATA SPEEDS: Each plan has a maximum data speed of 12 Mbps, 25 Mbps, 50 Mbps or 100 Mbps, depending on the selected plan. 50 Mbps and 100 Mbps maximum data speeds are not available in all coverage areas and require (a) a device capable of using enhanced AT&T 4G LTE-Advanced technologies or 5G/5G+ service and (b) use where those respective services are available. Speeds vary, may be affected by a number of factors, and are not guaranteed. DATA RESTRICTIONS: After data usage on a line reaches the data usage threshold for its particular AT&T Wireless Broadband plan in a bill cycle, for the remainder of the cycle AT&T may temporarily slow data speeds on that line if the network is busy. The applicable plan usage threshold is 75GB for the up to 12 Mbps plan, 100 GB for the up to 25 Mbps plan, 125 GB for the up to 50 Mbps plan, or 175 GB for the up to 100 Mbps plan. SERVICE RESTRICTIONS: AT&T Wireless Broadband does not permit access to all internet end points or services. Plans are limited to use with business applications, including business video applications. Plans may not be used for entertainment video streaming, surveillance video streaming, audio streaming, web hosting, public/guest Wi-Fi, and other prohibited uses set forth in your Business Agreement. VIDEOS: Includes Stream Saver feature which streams higher definition video in Standard Definition (max 1.5 Mbps) on compatible devices. Feature will not recognize all video content and may affect the speed of video downloads. To enjoy higher definition video when available, you can turn it off or back on at any time at att.com/myatt or att.com/premier as applicable. Streaming/video resolution vary, are affected by other factors and restrictions apply. Details at att.com/streamssaver. 5G SERVICE: Requires a compatible 5G device. 5G service may not be available in your area. See att.com/5Gforyou for coverage details. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G service. 5G+ SERVICE: Requires a compatible 5G+ device. 5G+ service is only available in very limited parts of select cities and has propagation limitations. See att.com/5Gforyou for cities. Plans with maximum data speeds may not enable you to experience the highest available speeds when accessing 5G service. AT&T BUSINESS FAST TRACK: Uses quality of service (QoS) network technology to provide a differentiated (i.e., enhanced versus "best effort") network experience for (depending on your selected plan) the first 10GB, 15GB, 30GB or 50GB per month of eligible business application data traffic originating on and traversing entirely over the AT&T-owned domestic 4G LTE network (excluding microcells, AT&T Wi-Fi service, roaming partner networks, and the AT&T 5G/5G+ network), benefiting you during times of network congestion. Plan includes either (a) the "always-on" Business Fast Track feature or, if you have an AT&T Private Mobile Connection service, (b) the Custom IP Packet Marking version of the Business Fast Track feature. For Custom IP Packet Marking, an AT&T Mobility Technical Engineer will help you decide which QoS is best suited  for particular business applications and implement it with your AT&T Private Mobile Connection service. Additional terms and conditions for AT&T Business Fast Track with Custom IP Packet Marking are set forth in the Business Agreement. Usage Allowance: Business Fast Track allowance depends on your selected plan: 10GB per month with the up to 12 Mbps plan, 15GB per month with the up to 25 Mbps plan, 30GB per month with the up to 50 Mbps plan, or 50GB per month with the up to 100 Mbps plan. After your Business Fast Track allowance is exhausted in a bill cycle, all data traffic will be handled on a "best-efforts" basis until the beginning of the next billing cycle. Limitations: Business Fast Track does not (a) prioritize data traffic ahead of all other data traffic (which may receive a similar or higher QoS), (b) provide priority access to available AT&T network resources, or (c) provide preemption capabilities. Termination or Suspension: AT&T reserves the right to terminate, suspend or restrict your access to Business Fast Track if your use of the feature is inconsistent with its intended use or the Business Agreement. COVERAGE: Coverage may include areas that are served by unaffiliated carriers & not on AT&T’s owned and operated network (off-net). Coverage is subject to change without notice. OFF-NET USAGE: Domestic off-net (roaming) data usage may be at 2G speeds. Excessive Off-Net Usage: You get an off-net (roaming) usage allowance for each service. If you exceed the allowance, your service(s) may be restricted or terminated. MISCELLANEOUS: Plans are not available online at att.com/smallbusiness and att.com/myatt. Business Agreement Discounts: Plans are not eligible for any CRU service discount described in your Business Agreement.

All offers, promotions, pricing, terms, restrictions & conditions subject to change & may be modified, discontinued or terminated at any time without notice.
