Wireless data designed with your business essential applications and budget in mind.¹

AT&T Wireless Broadband can give your company’s business connectivity the boost it needs to handle today’s business data needs:

• Get the additional bandwidth you need to run your most important business programs, including point-of-sale, electronic time clocks and cloud-based applications.
• Get connectivity for business apps up and running fast when wireline options aren’t available.
• Create a diverse, portable, and manageable business network connection using cellular.
• Prioritize business-critical applications over lower priority traffic during times of congestion on the AT&T owned domestic 4G LTE network with AT&T Business Fast Track.*

* Also known as AT&T Dynamic Traffic Management.

Select the option that best suits your business needs.

With 4 plan options to choose from and no overage charges how will you put AT&T Wireless Broadband to work for your business?

¹Speeds are not guaranteed and subject to network availability.
²Requires a wireless router with a Category 18 or higher modem and use where enhanced AT&T 4G LTE-Advanced technologies are available.
³AT&T Wireless Broadband does not allow access to entertainment and other non-business websites that offer video or audio streaming entertainment services, and is not intended for web hosting, or public or guest Wi-Fi.
⁴After 50GB of data usage, AT&T may temporarily slow speeds if the network is busy.
⁵After 75GB of data usage, AT&T may temporarily slow speeds if the network is busy.
⁶After 125GB of data usage, AT&T may temporarily slow speeds if the network is busy.
⁷After 175GB of data usage, AT&T may temporarily slow speeds if the network is busy.
⁸When enrolled, $5 auto-pay discount starts in 1 to 2 bill cycles.

¹AT&T Wireless Broadband is not intended as a substitute for consumer internet services.
AT&T Wireless Broadband Plans

AT&T Wireless Broadband Plans: Prices are for service only. Eligibility: Available only to business and government customers with a qualified AT&T wireless service agreement and only for their Corporate Responsibility User (CRU) lines of service. For full-service terms and conditions, see applicable wireless service agreement, including w/out limitation the Additional Service- and Equipment-Related Terms found at att.com/abs-addtl-terms (Business Agreement). Eligible Devices: Plans may only be used for a CRU line with a qualified data-only wireless router (sold separately) located in a fixed location using machine-to-machine business applications needing wireless data communication between the router and Customer’s business data network. Installment plan charges and other device purchase costs are extra UNLIMITED: Each qualified device activated with an AT&T Wireless Broadband plan must have a primary place of use (PPU) within AT&T’s owned and operated 4G LTE wireless network coverage area within the U.S. (Domestic Coverage Area). Plans do not include roaming use. DATA SPEEDS/RESTRICTIONS: Data speeds are limited to a maximum of 8 Mbps, 12 Mbps, 50 Mbps or 100 Mbps, depending on the selected plan. Actual speeds may be slower, particularly after a Business Fast Track usage threshold has been met. 30 Mbps and 100 Mbps maximum data speeds are not available in all coverage areas and require a device capable of using enhanced AT&T 4G LTE-Advanced technologies. After data usage on a line reaches the applicable Business Fast Track data usage threshold in a bill cycle it returns to being handled again on a “best-efforts” basis for the remainder of the billing cycle or until it reaches the usage thresholds for its particular AT&T Wireless Broadband plan after which AT&T may temporarily slow data speeds on that line during times of network congestion. The plan usage thresholds are 175GB for the 100Mbps plan, 125GB for the 50Mbps plan, 75 GB for the 12Mbps plan and 50 GB for the 8Mbps plan. SERVICE RESTRICTIONS: Plans may not be used for entertainment video streaming, audio streaming, web hosting, public/guest Wi-Fi, and other prohibited uses set forth in the Business Agreement.

AT&T BUSINESS FAST TRACK SOLUTION (ALSO KNOWN AS AT&T DYNAMIC TRAFFIC MANAGEMENT-ENTERPRISE): Feature uses “always-on,” but configurable Critical Data quality of service (“QoS”) network technology to give Customer a differentiated (i.e., enhanced versus “best effort”) network experience for Business Application/ data traffic originated on and traversing entirely over the AT&T-owned domestic 4G LTE network (excludes microcells, AT&T Wi-Fi service, roaming partner networks, and AT&T 5G network). The feature does not include priority access to available AT&T 4G LTE network resources or preemption. Device Requirements: Each line must have an AT&T Wireless Broadband plan and an applicable 4G LTE -compatible device provisioned with a Business Application used for transport of data to Customer’s data center. Business Application: Applications that are used for the transmission of Customer’s data to and from its authorized CRU-enabled Equipment, including routers, (each a “Business Application”). Business Applications may include, without limitation, business video calling/ conferencing, push-to-talk, dispatch, logistics, command and control, telematics, and monitoring applications used by Customer’s authorized CRU lines. Usage Limitation: Each line may use Business Fast Track up to 50GB of data with the 100Mbps plan, 30GB of data with the 50Mbps plan and 10GB of data per month on the 12Mbps and 8Mbps plans. After Data Allowance is exhausted, all CRU traffic will be handled on a “best-efforts” basis until the beginning of the next billing cycle. Limitations: Feature is available only within the DCA and only for data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network, depending on your device. Feature does not prioritize Customer’s Business Application data traffic ahead of all other data traffic. AT&T may slow data speeds on this line during times of network congestion. The plan usage thresholds are 175GB for the 100Mbps plan, 125GB for the 50Mbps plan, 75 GB for the 12Mbps plan and 50 GB for the 8Mbps plan. SERVICE RESTRICTIONS: Plans may not be used for entertainment video streaming, audio streaming, web hosting, public/guest Wi-Fi, and other prohibited uses set forth in the Business Agreement.

General Wireless Service Terms: Subject to applicable AT&T Business Agreement, Service is not for resale & is intended for use w/in DCA. If AT&T does not enforce any of the terms or restrictions of its service offerings, it is not a waiver of AT&T’s right to enforce those terms or restrictions. AT&T reserves the right to enforce all terms & restrictions at any time. If AT&T determines your use of services violates any of the applicable terms or policies found in the Business Agreement, we may in our sole discretion suspend, modify, terminate or restrict your service. COVERAGE: Coverage map shows high level approximation of areas included in and out of plan. For the most current coverage info for your area, check wireless.att.com/coverageviewer. This coverage may include areas that are served by unaffiliated carriers & not on AT&T’s owned and operated network (off-net). Coverage is subject to change without notice. For information where enhanced AT&T 4G LTE-Advanced technologies are available, check with your AT&T account representative. OTHER RESTRICTIONS & FEES: Other restrictions apply & may result in service termination. If you purchased a device that requires a term commitment, an Early Termination/Cancellation Fee applies if you cancel service after the first 30 days & before your term end. See att.com/equipment ETF for details on what fee may apply for your device and how the fee is prorated over time. Activation/upgrade fee per line (Up to $45) & deposit may apply. Credit approval may be required. AT&T reserves the right to suspend or terminate service to account, place any noncomplying device on an appropriate plan, and/or add any other required element of a plan. Additional Monthly Fees & Taxes: Apply per line & include Regulatory Cost Recovery Charge (up to $1.50), Administrative Fee ($1.99), & other fees which are not government-required surcharges (including without limitation a Property Tax Allowment surcharge of $0.20 - $0.45 applied per CRU’s assigned number) as well as taxes. Additional one-time charges may apply. See att.com/mobilityfees for more details. For full service terms and conditions, see the Business Agreement.
