Increase the visibility of your mobile security

Business Challenges
Now, mobility is part of business strategy. It’s viewed as a way to transform workflows and business processes in a very dramatic way. Governments realize the vulnerability of their data and may not have the framework to protect themselves in the following areas:

• The support of a range of usage models – corporate-owned, BYOD and shared devices
• Separating work and personal data from mobile devices

• Enforcing compliance with internal policy and industry regulations
• Providing protection for organizational data in apps and content
• Keeping pace with rapid OS and mobile platform updates

Ultimately, organizations are trying to find the right balance of maximizing productivity and amplifying data protection. IBM MaaS360 with AT&T can help to address these challenges with a comprehensive approach to Enterprise Mobility Management (EMM).

Solution Overview
IBM MaaS360 with AT&T helps provide mobile enablement security for the way people work and collaborate with colleagues and agencies. The way we think of highly secure enterprise mobility is about supporting the user’s expectations of being able to work while mobile and having the flexibility to use devices and apps of their choice. We do that by giving IT and security pros the capabilities they need to:

• Extend mobile to new areas of the organization and use cases
• Provide a high level of end-to-end mobile security across devices, apps, content and users
• Combine mobile management with IT tools to build and deploy mobile apps at scale
• Reduce the cost and complexity of managing mobile assets
• Help ensure compliance with policies and regulations

Features
• There are 4 different suite offerings: Essentials Suite, Deluxe Suite, Premier Suite, and Enterprise Suite.
Capabilities

IBM MaaS360 with AT&T offers solutions to help manage your entire mobile device fleet, increase productivity with highly secure emails, app & docs, reduce security & compliance risks and control your mobile IT environment. IBM MaaS360 with AT&T provides ease of use features like Over-The-Air configuration, compatibility with iOS, Android, Windows PC and Mac OS-X, and integrates with Exchange, Office 365, AD/LDAP and Certificate Authorities. With mobile intelligence analytics, a reporting & action engine, along with near real-time visibility with the MaaS360 Dashboard, you can now better control your entire mobile IT environment.

Essentials Suite

Mobile Device Management

- Manage smartphones, tablets & laptops featuring iOS®, Android®, Windows® & OS X®. (NOTE: Windows 10 and OS X work with APIs only). Enforce compliance with near real-time & automated actions

Mobile Application Management

- Deploy custom enterprise app catalogs
- Blacklist, whitelist & require apps
- Administer app volume purchase programs

Laptop Management with software updates, device management, and an optional add on for Location Based Service. (Laptop Location Based Service may not be used in the European Union)
Container App
- A separated mobile workspace for iOS, Android, and Windows
- Send contained messages to users from the solution’s portal
- Monitor telecom usage
- Monitor mobile data usage with alerts
- Set policies to restrict or limit data & voice roaming
- Review integrated reporting and analytics

Deluxe Suite
Includes everything in the Essentials Suite plus:

Secure Mobile Mail
- Highly secure container for email, text & attachments to help prevent data leakage
- Enforce authentication, copy/paste & forwarding restrictions
- FIPS 140-2 compliant, AES-256 bit encryption for data at rest

Premier Suite
Includes everything in the Deluxe Suite plus:

Secure Mobile Browser
- A feature-rich web browser for highly secure access to intranet sites
- Define URL filters & security policies based on categories
- Block known malicious websites

Gateway for Browser
- Enables the Secure Mobile Browser to access enterprise intranet sites, web apps & network resources behind your firewall
- Access seamlessly & with higher security without needing a VPN session on mobile devices

Mobile Identity Management
- Integration with Active Directory, LDAP and Azure AD for authentication, enrollment and reporting
- Single sign on to container apps, productivity tools and enterprise apps
- SAML federated authentication for the administrative portal

Gateway for Documents
- Enhance protections for your content with highly secure access to internal files, e.g. SharePoint®, Windows File Share®
- Retrieve enterprise documents without a device VPN session

Mobile Application Security
- Enforce authentication & copy/paste restrictions
- Limit or prevent access from compromised devices

Gateway for Apps
- Add per app VPN to Mobile Application Security to integrate behind-the-firewall data in private apps
- Incorporate enterprise data without a device VPN session

Mobile Content Management
- Store documents & files in the container to help prevent data leakage
- Enforce authentication, copy/paste & view-only restrictions
- Access distributed content/repositories: SharePoint®, Box®, Google Drive® & OneDrive®
Enterprise Suite
Includes everything in the Premier Suite plus:

Mobile Document Editor
- Create, edit & save content in a highly secure, encrypted container
- Collaborate on Word®, Excel®, PowerPoint® & text files
- Change fonts & insert images, tables, shapes, links & more

Mobile Document Sync
- Synchronize user content across managed devices
- Restrict copy/paste & opening in unmanaged apps
- Store content more securely, both in the cloud & on devices

Mobile Threat Management
- Detect and analyze mobile malware on compromised devices
- Automate remediation via near real-time compliance engine
- Take action on jailbroken/rooted devices over-the-air

Mobility Professional Services Offers

Basic Configuration and Training ($500) – Required with purchase of Essentials Suite. AT&T will provide implementation services associated with the purchase of Solution subscriptions. This remote configuration and training does not include the implementation of the Cloud Extender or any components on customer premises.

Basic Plus Configuration and Training ($1,500) – Required with purchase the Essentials Suite with the Cloud Extender. The Cloud Enterprise Extender provides the ability to integrate with enterprise systems such as Microsoft Exchange®, Microsoft Office 365®, and Active Directory/ LDAP® in a highly secure manner. Includes associated implementation services.

Premium Configuration and Training ($2,500) – Required with purchase of IBM MaaS360 with AT&T including Deluxe Suite. AT&T will provide implementation services associated with the purchase of Solution subscriptions. The deployment will be conducted in a supplier hosted environment. This hosted instance will use a Cloud Extender server installed in the customer’s environment to integrate with its enterprise directory and corporate E-mail environment.

*All fees paid for the Solution are non-refundable

Cloud Extender server installed in the customer’s environment to integrate with its enterprise directory and corporate E-mail environment.

Premium Plus Configuration and Training Services ($5,000) – Required with purchase of IBM MaaS360 with AT&T Premier and Enterprise Suites. AT&T will provide implementation services associated with the purchase Solution subscriptions. The deployment will be conducted in a supplier hosted environment. This hosted instance will use a Cloud Extender server installed in the customer’s environment to integrate with its enterprise directory and corporate E-mail environment as well as Mobile Enterprise Gateway for highly secure access.
IBM MaaS360 with AT&T

Important Information

General: IBM MaaS360 with AT&T as described in this Product Brief (the “Solution”) is available only to eligible customers with a qualified AT&T agreement (“Qualified Agreement”). The Solution is subject to (a) the terms and conditions of the IBM MaaS360 with AT&T Terms of Use and End User License Agreement found at https://www.business.att.com/content/dam/attbusiness/collegenet/ibm-maas-360-with-att-eula.pdf (“Additional Product Terms”); (b) the Qualified Agreement; and (c) applicable Sales Information. For government customers, any Additional Product Terms not allowable under applicable law will not apply, and the Qualified Agreement will control in the event of any material conflict between the Qualified Agreement and the Additional Product Terms. Except for government customers, Customer must accept the Additional Product Terms on behalf of its end users and be responsible for their use of the Solution. Any service discounts, equipment discounts, and/or other discounts set forth in the Qualified Agreement do not apply to the Solution. The Solution may not be available for purchase in all sales channels or in all areas. Additional hardware, software, service and/or network connection may be required to access the Solution. Availability, security, speed, timeliness, accuracy and reliability of service are not guaranteed by AT&T.

Requirements: Technical Information: The Solution may only be purchased by Customers in the United States. A minimum of 20 licenses is required for initial purchase. The Solution is available for use with multiple network service providers and its functionality is limited to certain mobile devices and operating systems. A list of the compatible devices and operating systems is available by contacting an AT&T Account Executive. For users subscribed to AT&T wireless service, activation of an eligible AT&T data plan with short message service ("SMS") capabilities is required. For use of the Solution with devices subscribed to non-AT&T wireless providers, Customer is responsible for ensuring that its applicable end users and the Solution comply with all applicable terms of service of such other wireless carrier(s). All associated voice, messaging and data usage will be subject to the applicable rates and terms of such other wireless carrier(s). Refer to applicable wireless carrier(s) for such rates, terms and conditions. A compatible device with SMS capabilities is required. The Solution’s administrative interface is accessed via a Web portal and requires a browser with Internet connection. The Solution may be used as a tool to configure and customize certain settings and features and perform software updates only for compatible devices. Improper or incomplete configuration and/or downloads performed by Customer may result in service interruptions and/or device failures. AT&T does not guarantee compliance with such customized settings and/or updates. Customer may not use the Solution if failure of the Solution could lead to death, bodily injury, or property or environmental damage. Customer is responsible to assess the suitability of the Solution for its intended use and Content and to take necessary actions to order, enable, or use available software protection features appropriate for the Content being used with the Solution. By using the Solution, Customer accepts responsibility for use of the Solution, and acknowledges that it meets Customer’s requirements and processing instructions to enable compliance with applicable laws. The App may only be used in connection with the Solution.

Reservations: AT&T reserves the right to (i) modify or discontinue the Solution in whole or in part and/or (ii) terminate the Solution at any time without cause. AT&T reserves the right to perform work at a remote location or use, in AT&T’s sole discretion, employees, contractors or suppliers, located outside the United States to perform work in connection with or in support of the Solution. The Solution may be used as a tool to configure and customize certain settings and features and perform software updates only for compatible devices. Improper or incomplete configuration and/or downloads performed by Customer may result in service interruptions and/or device failures. AT&T does not guarantee compliance with such customized settings and/or updates. Customer may not use the Solution if failure of the Solution could lead to death, bodily injury, or property or environmental damage. Customer is responsible to assess the suitability of the Solution for its intended use and Content and to take necessary actions to order, enable, or use available software protection features appropriate for the Content being used with the Solution. By using the Solution, Customer accepts responsibility for use of the Solution, and acknowledges that it meets Customer’s requirements and processing instructions to enable compliance with applicable laws. The App may only be used in connection with the Solution. To the extent not in conflict with the Qualified Agreement or applicable law Customer’s sole and exclusive remedy for any damages, losses, costs and expenses arising out of or relating to use of the Solution will be termination of service.

Data Privacy: Customer Personal Data may be transferred to or accessible by (i) AT&T personnel around the world; (ii) third parties who act on AT&T’s or AT&T’s supplier’s behalf as subcontractors; and (iii) third parties (such as courts, law enforcement or regulatory authorities) where required by law. Customer will only provide or make Customer Personal Data accessible by third parties in accordance with and to the extent required by law, for as long as necessary and consistent with applicable law. The Solution’s administrative interface is accessed via a Web portal and requires a browser with Internet connection. The Solution may be used as a tool to configure and customize certain settings and features and perform software updates only for compatible devices. Improper or incomplete configuration and/or downloads performed by Customer may result in service interruptions and/or device failures. AT&T does not guarantee compliance with such customized settings and/or updates. Customer may not use the Solution if failure of the Solution could lead to death, bodily injury, or property or environmental damage. Customer is responsible to assess the suitability of the Solution for its intended use and Content and to take necessary actions to order, enable, or use available software protection features appropriate for the Content being used with the Solution. By using the Solution, Customer accepts responsibility for use of the Solution, and acknowledges that it meets Customer’s requirements and processing instructions to enable compliance with applicable laws. The App may only be used in connection with the Solution. To the extent not in conflict with the Qualified Agreement or applicable law Customer’s sole and exclusive remedy for any damages, losses, costs and expenses arising out of or relating to use of the Solution will be termination of service.

Content: Content consists of all data, software, and information that Customer or its authorized users provides, authorizes access to, or inputs to the Solution. The App may only be used in connection with the Solution. To the extent not in conflict with the Qualified Agreement or applicable law Customer’s sole and exclusive remedy for any damages, losses, costs and expenses arising out of or relating to use of the Solution will be termination of service.
