AT&T IoT Asset Management Solutions for Rental Tools & Equipment

Problem

Lack of visibility into where your rental tools and equipment are deployed or stored can be costly to a tool and equipment rental company:

- Operating costs can increase due to technicians going to a wrong location to service or retrieve rental equipment and tools
- Revenue can be reduced when equipment and tools are difficult to locate and retrieve during the rental process
- Lost or stolen tools can impact profitability
- Customer satisfaction can be impacted when equipment and tools cannot be quickly located and retrieved, affecting both pickup and delivery customers

Solution

AT&T's IoT Asset Management Operations Center provides the ability to track the location and movement of your rental assets.

Simply attach an asset tracker to your tools and equipment and manage and monitor your connected assets via AT&T's Asset Management Operations Center.

AT&T Asset Management Operations Center (AMOC)

AMOC is a customizable solution that enables businesses to monitor a wide range of IoT assets in multiple locations in one centralized dashboard. Using AMOC, businesses can set up alerts and quickly identify and solve issues, helping to improve operational efficiency and peak productivity of assets.

AMOC Capabilities

- Compatible with multiple LTE/LTE-M/satellite/Wi-Fi devices
- View historical trends of sensor data
- Respond in near real-time to critical issues
- Devices are available to support the monitoring of location, temperature, humidity, motion detection, and ambient light intensity
- Use geofencing to quickly determine if assets are where they should be located

Sampling of available devices

	LTE Type	GPS	Global	Wi-Fi	BT	Rechargeable Battery	Motion	Impact	Vibration	Enclosure	Powered Asset	Temperature	Humidity	Light	Airflight	Battery size	Lifetime messages
BeWhere B1-MIoT R4-INT Battery	M	•				•	•	•	IP66		•	•	•		4600mAh	~3,500	
CalAmp TTU-2840XT	C1/3G	•				•	•	•	IP67	•	Opt.				5.3 Ah	500	
Micron Bolt Mini - LTE M (w/repl. batt.)	M	•	•	•	Repl.	•		•	IP67						5400mAh	~2,200
