

The Connected General Motors Car Bundle from AT&T provides mission-critical

field connectivity, vehicle telematics and business intelligence

Connected GM Car Bundle

No contract

\$45

per car/per month

In-cab internet
5GB of monthly data

AT&T Fleet Complete
Vehicle management platform

High-end connectivity is vital in streamlining your field operations and providing exceptional service to your end customer. AT&T's Connected GM Car Bundle features a 4G LTE WiFi hotspot through OnStar connectivity and AT&T Fleet Complete vehicle management platform designed to improve your customer service, view your fleet's performance in near-real time, remotely manage staff and asset safety, and get customized report analysis, as detailed or top-level as you need.

To learn more about the Connected GM Car Bundle, contact your AT&T sales representative.
