Introducing AT&T Mobile Select Priority – Pooled Plans that help you tame overages, wrangle wasteful under usage, and stay connected and productive when it’s most critical for business.

Help control your data costs and user experience with AT&T Mobile Select™ Priority – Pooled Plans, the newest addition to our AT&T Mobile Select portfolio. When we introduced AT&T Mobile Select – Pooled Plans, we helped simplify mobility for business customers with plans that offered flexible pooled data for eligible devices. Now we’ve created a premium option solely for eligible 4G LTE, 5G Evolution, 5G and 5G+ devices: AT&T Mobile Select Priority – Pooled Plans.

AT&T Mobile Select Priority – Pooled Plans offer the benefits of flexible pooled data and also let your users:

• take advantage of AT&T 5G millimeter wave (5G+) service\(^1\) and AT&T 5G low band spectrum (5G) service\(^2\), where each is available,
• get added security features through the Private Wi-Fi app for compatible smartphones, and
• use the AT&T Business Fast Track (formerly AT&T Dynamic Traffic Management) app to prioritize users’ eligible business data up to the amount of their plan’s data allowance.\(^3\)
• ban the spam with AT&T Call Protect Basic, which identifies potential spam and automatically blocks suspected fraudulent calls.\(^4\)

\(^1\) Req’s a compatible 5G+ device. 5G+ service is not avail. in most areas; it is only avail. in very limited parts of specific cities. Other restr’s apply. See att.com/5Gforyou for details.
\(^2\) Req’s a compatible 5G device. 5G service is not avail. everywhere. See att.com/5Gforyou for details.
\(^3\) Avail. solely for business data originating on and traveling over the AT&T-owned domestic 4G LTE & 5G Evolution network. Req’s compatible device. Feature usage with a 4G LTE device is limited to AT&T-owned domestic 4G LTE network; feature usage with a 5G Evolution device is avail. on the AT&T-owned domestic 4G LTE & 5G Evolution network. Feature does not prioritize your eligible data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher quality of service. Not avail. on 5G+ or 5G network. Other restr’s apply.
\(^4\) Req’s compatible smartphone. May not identify all spam/fraud calls. Other restr’s apply.
The power of the data pool

Pooled data can help you deal with unused data and overages across teams with different data demands under a single billing account. For example, an insurance company may have adjusters in the field who consume vast amounts of data each month. The same company may have a home office where the staff uses much less data each month.

By having all of these users in the same data pool, the surplus data from the light users can help offset the overage charges of the data-heavy users. What’s more, the data pool is flexible so you can customize it to fit your organization. You can have a mix of pooled plans for different devices with different data allotments, all within the same data pool.

- Users with pooled plans are added to the data pool
- Users deplete their own data allowances first and then incur overage charges at the specified rate
- If the data pool’s total under usage exceeds the total over usage at month’s end, the excess under usage is reallocated to help offset the overage charges
- As users come and go, the data pool goes up and down depending on individual contribution!

Prioritize your data with AT&T Business Fast Track

AT&T Business Fast Track gives you the ability to assign a higher priority to your business data originating on and traveling over the AT&T-owned domestic 4G LTE and 5G Evolution network. It’s like giving your business-critical data a fast lane during network congestion.

- On-demand app prioritizes data with the press of a button on your compatible smartphone or tablet
- Differentiated experience for data traffic, providing more predictable wireless application performance
- Can be used up to the data allotment of each user’s plan (prioritization does not pool)
- Can be used with a variety of business solutions including:
  - AT&T Enhanced Push-to-Talk
  - AT&T Workforce Management

Because better protection matters – Private Wi-Fi

AT&T Private Wi-Fi is an app that connects eligible smartphones to unencrypted public Wi-Fi with greater confidence. It provides smartphone users a Virtual Private Network (VPN) and alerts you when connecting to and using an unencrypted Wi-Fi network.

- Private Wi-Fi VPN (Virtual Private Network) – Transforms open Wi-Fi from unencrypted to encrypted by automatically creating a VPN as soon as your smartphone is connected.
- Private Wi-Fi Alerts – Provides threat detection and alerts in near-real time whenever a Wi-Fi vulnerability is detected on your smartphone, so you can disconnect to protect your business.

---

1 Data pool can consist of CRU lines on Mobile Select Priority – Pooled Plans or Mobile Select – Pooled Plans or both within a single billing account.
2 Req’s a compatible 5G+ device. 5G+ service is not avail. in most areas; it is only avail. in very limited parts of specific cities. Other restr’s apply. See at t.com/5Gforyou for details.
3 Req’s a compatible 5G device. 5G service is not avail. everywhere. See at t.com/5Gforyou for details.
4 Feature usage with a 4G LTE-capable device is limited to the AT&T-owned domestic 4G LTE network; feature usage with a 5G Evolution-capable device is avail. on the AT&T-owned domestic 4G LTE and 5G Evolution network. Not avail. on the 5G+ or 5G network.
5 Req’s a smartphone operating on a compatible iOS or Android operating system. Not avail. outside the Domestic Coverage Area.
6 May be blocked by certain video streaming apps, in which case the data will bypass or disconnect the VPN connection.
See pages 5-7 for pricing and terms.
**Build your data pool**

Does your sales team need 10GB Mobile Select Priority – Pooled Plans for smartphones while your IT team needs the 3GB Mobile Select – Pooled Plan for smartphones? You can mix and match devices, plans and data allotments within the same data pool.

**Taxes, fees & other monthly charges extra.**

**Data Overage:** Pay-per-use rate of $0.000009536/KB applies.

1 Only for compatible smartphones and tablets and only for use on the AT&T-owned domestic 4G LTE & 5G Evolution network up to the plan’s data allowance. Business Fast Track allotment does not pool.

2 Only for smartphones in Domestic Coverage Area.

3 Data-Only Devices: tablets, laptops, LaptopConnect/aircards, netbooks, cases, mobile hotspot devices and select other data-only devices. Excludes routers and devices used for Wireless Wide Area Network connectivity. Pay-per-use roaming rates apply.

4 Plan usage not available in Mexico. Pay-per-use roaming rates apply.

5 Basic and quick messaging phones only.
Additional AT&T Mobile Select – Pooled Plans for other devices:

You can also choose AT&T Mobile Select – Pooled Plans for other eligible devices you wish to add to your account — these plans don’t have a dedicated data allowance to contribute to the data pool, but the devices can still benefit at the end of the bill cycle from any unused data from the larger pool.

Data Overage: Pay-per-use rate of $0.000009536/KB applies.

1 **Connected Devices**: Cameras, game consoles and select other data-only connected devices. Connected Devices have no plan usage in Mexico. Pay-per-use roaming rates apply.

2 **Connected Wearable**: is a wireless phone designed to be worn that is capable of making/receiving calls without being connected to another wireless device. Messaging requires compatible device. Connected Wearables have no plan usage in Mexico. Pay-per-use roaming rates apply.

3 **Wireless Home Phone and AT&T Wireless Internet** devices have no plan usage in Mexico. Pay-per-use roaming rates apply.

---

AT&T Business Fast Track is only available for use on the AT&T-owned domestic 4G LTE & 5G Evolution network.

---

AT&T MOBILE SELECT – POOLED PLANS & AT&T MOBILE SELECT PRIORITY – POOLED PLANS: Prices are for service only. Eligibility: Available only to business and government customers with a qualified AT&T wireless service agreement and only for their Corporate Responsibility User (CRU) lines of service. For full service terms and conditions of service, see applicable wireless service agreement, including without limitation the Additional Service- and Equipment-Related Terms found at [att.com/abs-additional-terms](http://att.com/abs-additional-terms) (Business Agreement). Monthly Service Charge Discount: If you activate a smartphone that is purchased at full price, on a qualified installment agreement, on a month-to-month term, or bring your own, the monthly service charge for your Mobile Select – Pooled plan will be discounted by $25 per month as compared to the standard monthly service charge for the plan that applies if you activate a smartphone that is purchased with a 2-year service commitment. If you qualify, the monthly service charge discount will appear as a credit on your bill. Loss of Monthly Service Charge Discount with 2-year Smartphone Upgrade: if upgrading to a smartphone with a 2-year service commitment, you will lose any monthly service charge discount for that CRU line. Devices: Eligible devices sold separately. Installment plan charges and other device purchase costs are extra. A limit on the number of financed devices per wireless account may apply. Data: For use in the United States, Puerto Rico and U.S. Virgin Islands (Domestic Coverage Area or DCA) only. Plans for phones and $20/mo. and higher plans for data-only devices also include data usage in Mexico for compatible data-only devices (see Mexico Service Restrictions below). Plans also include usage in Canada for select connected vehicles only. Additional or promotional data may not be available for use outside the DCA. Tethering/Mobile Hotspot: Use for up to 5 simultaneous devices. Tethering requires compatible device. Video Streaming: Includes the Stream Saver feature which allows you to save data on content it recognizes as video by streaming higher definition video at a max of 1.5 Mbps, in Standard Definition quality (about 480p), on compatible devices (unless the video provider has opted out). AT&T will activate the feature for you. Check your account online to see if the feature is active. Once active, you can turn it off or back on at any time online at [wireless.att.com/business](http://wireless.att.com/business). Stream Saver will not recognize all video content. Ability to stream and video resolution may vary and be affected by other factors. Restrictions apply. See [att.com/stream saver](http://att.com/stream saver) for more details. If two or more tethered devices are watching video from the same source at the same time, we may identify it as a single video and slow the speeds collectively to a max of 1.5 Mbps, which may impair your ability to watch video on these tethered devices. You can pause video on all but one of the tethered devices, watch from different sources, or turn off Stream Saver to resolve this issue. POOLED DATA: Within a single billing account number (BAN), CRUs activated on Mobile Select – Pooled plans, Mobile Select Priority – Pooled plans and/or other Mobile Select plans that include pooled data are combined to create a “Data Pool.” Every billing cycle, each CRU first uses his or her plan’s included data allotment (Data Allowance). If any, if a CRU does not use all of the plan’s Data Allowance, it creates an underage in the amount of the unused Data Allowance (Under Usage). If a CRU uses more than the plan’s Data Allowance (e.g., any CRU with a 0GB plan), the CRU incurs Data Overage charges in the amount of the excess data usage (Over Usage). At the end of the billing cycle, AT&T calculates the total Under Usage.
amounts for CRU lines in the Data Pool and the total Over Usage amounts for CRU lines in the Data Pool and then compares the two totals. If the total Over Usage amount exceeds the total Over Usage amount (and the total Over Usage amount is greater than zero), the Under Usage is allocated among CRU lines in the Data Pool with Over Usage, resulting in per line credits on your invoice equal to each such CRU line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Over Usage amount exceeds the total Under Usage amount (and the total Under Usage amount is greater than zero), the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each CRU's Data Overage charges to determine each such CRU's share of the total Under Usage amount, resulting in per line credits on your invoice to partially offset each such CRU's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1,000 KB of Over Usage (which means an allocation factor of 10%), then your invoice will show, with respect to each CRU line with Over Usage, both (a) the CRU's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the CRU's Data Overage charges. Changing or migrating CRU lines to pooled data plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If your organization's foundation account number (FAN) has multiple BAKs, you may have one Data Pool for each BAK under the FAN; however, CRU lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each CRU line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of CRU lines in a Data Pool due to business needs and system limitations. DATA OVERAGE. If you exceed the total amount of data in your Data Pool during your billing period, a pay-per-use rate of $0.000009936 per kilobyte (KB) will apply. 1,024 KB = 1 megabyte (MB); 1,048,576 KB = 1 gigabyte (GB). UNLIMITED TALK. For phones and Connected Wearables only. Includes unlimited calls within the DCA (plans for phones also include calls within Mexico). Service may be terminated for excessive roaming (see Business Agreement). Unlimited Nationwide Calling: For WHP and WHPI only. Includes long distance calls within and from the DCA to the DCA, Guam and Northern Mariana Islands. Unlimited Talk to Canada and Mexico: For phones, Connected Wearables, WHP and WHPI only. Includes unlimited International Long Distance (ILD) calling from DCA to Mexico and Canada only. You may be charged for calls to special or premium service numbers. Calls to Other Countries: Plans for phones, Connected Wearables, WHP and WHPI also include ILD calling from the DCA (plans for phones also include calling from Mexico) to countries other than Canada & Mexico. Pay-per-use pay-per-rate rules apply unless an ILD service package is added to the CRU line placing such calls. Rates subject to change without notice. For rates, see att.com/world/connect.

ADDITIONAL TERMS FOR AT&T MOBILE SELECT PRIORITY – POOLED PLANS: Plans also include, for compatible devices, access to (a) the AT&T 6G mmWave (5G) network, (b) the AT&T 5G low band spectrum (5G) network, (c) the AT&T Business Fast Track application, and (d) the Private Wi-Fi Application. REQUIREMENTS: Eligible smartphones and tablets sold separately. Installation plan charges and other device purchase costs are extra. A limit on the number of financed devices per wireless account may apply. 5G NETWORK ACCESS & COVERAGE: Requires a compatible 5G device. 5G service is not available everywhere. See att.com/5Gforyou for details. AT&T BUSINESS FAST TRACK (formerly known as AT&T Dynamic Traffic Management): Requires a compatible 5G device. 5G service is not available in most areas; it is available only in very limited parts of specific cities. See att.com/5Gforyou for details.

MULTIPLE CONNECTED DEVICES: Connected Wearables: Include unlimited calls within the DCA (plans for phones also include calls within Mexico) to countries other than Canada & Mexico. Pay-per-use rates apply unless an ILD service package is added to the CRU line placing such calls. Rates subject to change without notice. For rates, see att.com/world/connect.

AT&T CALL PROTECT BASIC: Provides network-based and application-based features that help manage unwanted calls. AT&T Call Protect Basic (a) automatically blocks calls AT&T determines to be spam/nuisance, fraud/scam, or neither/neutral using data analytics and network monitoring, as well as reports from customers, and (b) provides suspected spam alert. AT&T will activate the feature for you. You can opt-out at any time by using your online account management portal (att.com/myatt or att.com/premier, as applicable) or by contacting your sales representative. Device Requirements: Each line requires a compatible VoLTE-enabled smartphone (either an iPhone 6 or newer operating on iOS version 9.3 or higher or an AT&T HD Voice-enabled Android smartphone). Smartphones sold by other carriers or direct from device manufacturers may not be compatible. AT&T Call Protect Basic (CP Basic) is a wireless voice service (CMRS) & mobile broadband internet access service. For AWI details visit att.com/wirelessinternet. For more details.

For phones and Connected Wearables only. Includes unlimited calls within the DCA (plans for phones also include calls within Mexico). Service may be terminated for excessive roaming (see Business Agreement). Unlimited Nationwide Calling: For WHP and WHPI only. Includes long distance calls within and from the DCA to the DCA, Guam and Northern Mariana Islands. Unlimited Talk to Canada and Mexico: For phones, Connected Wearables, WHP and WHPI only. Includes unlimited International Long Distance (ILD) calling from DCA to Mexico and Canada only. You may be charged for calls to special or premium service numbers. Calls to Other Countries: Plans for phones, Connected Wearables, WHP and WHPI also include ILD calling from the DCA (plans for phones also include calling from Mexico) to countries other than Canada & Mexico. Pay-per-use pay-per-rate rules apply unless an ILD service package is added to the CRU line placing such calls. Rates subject to change without notice. For rates, see att.com/world/connect.
Private Wi-Fi VPN: Private Wi-Fi VPN establishes a highly secure proxy within your smartphone to encrypt unencrypted web and application data traffic as it travels over open Wi-Fi hotspots. Private Wi-Fi VPN does not guarantee complete security for your data and may be blocked by certain video streaming apps, in which case the data will bypass or disconnect the VPN connection. To help ensure the service is properly provisioned, you may be requested to enable the "Location" feature on your smartphone. You must also separately give permission to allow the Private Wi-Fi VPN connection to be established. **Wi-Fi Alerts:** Wi-Fi Alerts notifies you when a Wi-Fi network you join with your smartphone appears to be risky or under attack. Wi-Fi Alerts automatically detects when your smartphone connects to a new network and runs a series of checks on that network to help ensure that it is behaving properly. If the network is deemed risky, the PVF App will provide you with instructions detailing how to disconnect from the network.

All offers, promotions, pricing, terms, restrictions & conditions subject to change & may be modified, discontinued or terminated at any time without notice.

**GENERAL WIRELESS SERVICE TERMS:** Subject to applicable Business Agreement. Service is not for resale & is intended for use primarily within the DCA. If AT&T does not enforce any of the terms or restrictions of its service offerings, it is not a waiver of the right to enforce those terms or restrictions. AT&T reserves the right to enforce all terms and restrictions at any time. AT&T determines your use of the services violates any of the applicable terms or policies found in the applicable Business Agreement, we may in our sole discretion suspend, modify, terminate, or restrict your service. **COVERAGE:** Coverage map shows high level approximation of areas included in and out of plan. For the most current coverage info for your area, check [wireless.att.com/coverageviewer](https://wireless.att.com/coverageviewer). Coverage may include areas that are served by unaffiliated carriers & not on AT&T's owned and operated network (off-net). Coverage is subject to change without notice. **NETWORK MANAGEMENT:** All AT&T service is subject to AT&T network management policies. See [att.com/broadbandinfo](https://www.att.com/broadbandinfo) for details. **OFF-NET USAGE:** International and domestic off-net (roaming) data usage may be at 2G speeds. Excessive Off-Net Usage: You get an off-net (roaming) usage allowance for each service. If you exceed the allowance, your service(s) may be restricted or terminated. **OTHER RESTRICTIONS & FEES:** Other restrictions apply and may result in service termination. If you purchased a device that requires a term commitment, an **Early Termination/Cancellation Fee** applies if you cancel CRU service after the first 30 days and before the CRU service term ends. See [att.com/equipmentETF](https://www.att.com/equipmentETF) for details on what fee may apply for your device and how the fee is prorated over time. **Activation/upgrade fee** per line (up to $45) & deposit may apply. Credit approval may be required. AT&T reserves the right to suspend or terminate service to your account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan. **Additional Monthly Fees & Taxes:** Apply per line & include Regulatory Cost Recovery Charge (up to $1.50), Administrative Fee ($1.99), & other fees which are not government-required surcharges (including without limitation a Property Tax Allotment surcharge of $0.20-$0.45 applied per CRU's assigned number) as well as taxes. Additional one-time charges may apply. See [att.com/mobilityfees](https://www.att.com/mobilityfees) for more details. For full service terms and conditions, see the Business Agreement.

To take advantage of these great offers, contact your AT&T Representative or go online at [att.com/mobileselect](https://www.att.com/mobileselect).
