

Ban the spam and protect your Wi-Fi connections

Activate advanced mobile protection from AT&T to identify and block spammers and get highly secure Wi-Fi connections

Robocalls are annoying—and potentially dangerous to your data and devices. And don't forget another mobile hazard you might face: unsecure Wi-Fi® connections.

Take heart These 2 apps can help defend your devices and data: AT&T Call Protect and AT&T Mobile Security.

The growing robocall epidemic

5.1 billion calls per month
169.6 million calls per day
7.1 million calls per hour
2,000 calls per second
44% of all calls to mobile phones will be scam calls in 2019

AT&T Call Protect (Android and iOS)¹

- **Automatic Fraud Blocking** detects and blocks calls from likely fraudsters.
- **Suspected Spam Warning** identifies telemarketers and other suspected spam calls.
- **Personal Block List** lets you block unwanted calls by number.
- **Enhanced Caller ID[†]** identifies unknown caller details.

[†]Available with AT&T Mobile Security and Call Protect Plus

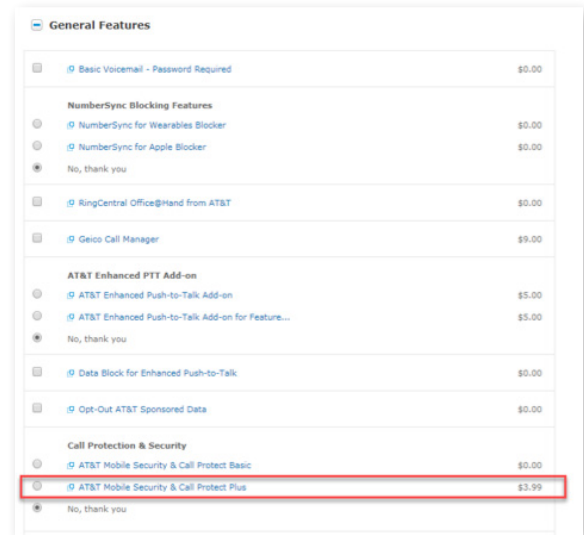

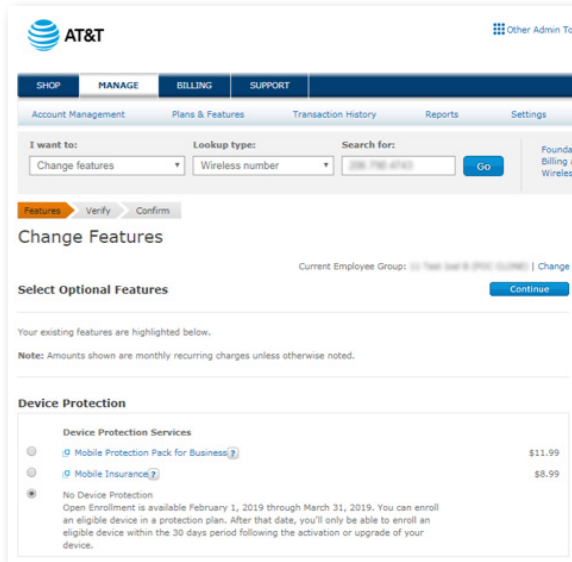

AT&T Mobile Security (Android and iOS)²

- **Device Security** helps protect your data from mobile threats.
- **Breach Reports** alert you to company data breaches.
- **Secure Wi-Fi VPN[†]** helps protect your data over open (unencrypted) Wi-Fi.
- **Wi-Fi Alerts[†]** warn you if a Wi-Fi network may be dangerous to your privacy.
- **Theft Alerts[†]** notify you if suspicious activity is detected.

[†]Available with AT&T Mobile Security and Call Protect Plus

More security, more control, and better together

Get more control over unwanted calls and security threats. Log in to Premier to get started.

¹AT&T Mobile Security & Call Protect Plus: Subscribers pay \$3.99 per month. Service auto-renews every 30 days unless canceled. For iOS users/Apple subscriptions, go to iTunes to cancel your subscription for Plus version. To remove the service entirely, you must cancel the Basic version through the app or via myAT&T once your iTunes subscription ends. Payments are nonrefundable (subj. to applicable law). For AT&T billing, cancel anytime. Learn about managing your features at att.com/mobilepurchases, by calling customer service at 800.331.0500 (or dialing 611 from wireless phone). Cancel within either app. **Custom Call Controls:** Suspected spam calls are automatically sent to voicemail. Manage settings via app. **Enhanced Caller ID:** Must be in AT&T HD Voice coverage area to be alerted to caller name and location. **Reverse Number Lookup:** Limited to 200 queries per user within 24-hour period. **Secure Wi-Fi VPN:** Automatically enabled only when your device joins an open (unencrypted) Wi-Fi network. Does not work when using certain video streaming apps. Not available while roaming internationally.

You can cancel anytime within either app. Learn how to manage your features at att.com/mobilepurchases, or by calling us at 800.331.0500 (or dialing 611 from a wireless phone). **Custom Call Blocking/Controls:** All call categories, except for the fraud category, are set to allow. Manage call settings in the app. **Enhanced Caller ID:** Must be in an AT&T HD Voice coverage area. **Reverse Number Lookup:** Limited to 200 U.S. queries per user within a 24-hour period. **Secure Wi-Fi VPN:** Automatically enabled only when your device joins an open (unencrypted) Wi-Fi network. Does not work when using certain video streaming apps. Not available while roaming internationally.

²AT&T Mobile Security & Call Protect: Service includes access to **AT&T Mobile Security** and **AT&T Call Protect**. Requires download of separate apps. **AT&T Mobile Security:** When Mobile Security app is installed, Call Protect features like Automatic Fraud Blocking and Suspected Spam Warning will be enabled. **App Monitor:** AT&T Mobile Security is not guaranteed to detect or protect against all viruses, malware, rooting, and unauthorized app installations, or to prevent data breaches or device theft. **AT&T Call Protect:** Automatic Fraud Blocking may inadvertently block wanted calls. Settings can be adjusted to turn off blocking or allow specifically designated numbers. **Suspected Spam Warning:** Must be in an AT&T HD Voice coverage area for suspected spam call alerts. Suspected spam may include service messages and/or other permitted calls.

Eligibility: Available for consumer and business (except for government) postpaid wireless accounts with eligible service. Not available for AT&T PREPAID® accounts. **Device requirements:** Compatible device is required and includes iPhones 6 or newer, running iOS v9.3+ (AT&T Call Protect), and AT&T HD Voice-enabled Android smartphones (AT&T Mobile Security & Call Protect). Some features vary by device operating system. Phones sold by other carriers or direct from device manufacturers may not be eligible. **Rates:** Includes access to both services for Android, but requires download of separate apps. For iOS users, you will be auto-billed every month through your iTunes account unless you cancel your Plus subscription. To manage your Plus subscription, go to iTunes. Data charges may apply for app download and usage. Other charges and restrictions may apply.*
