Spend less time trying to connect, and more time collaborating.

Technology and tools to simplify your communications

You know that your employees are likely looking for similar communications tools and applications on the road, and in the office, regardless of the type of device they might use. Everyone wants to be able to speak to colleagues or clients and collaborate with off-site associates in the same manner. AT&T Collaborate is a flexible hosted voice solution that gives you the traditional voice features you need with the flexibility to add the collaboration tools you want, regardless of your work location.

Benefits

• Share information quicker - make decisions faster with chat, voice, video, presence, and conferencing
• PBX in the cloud - Avoid maintenance, support, and CapEx with a cloud-based service with no premises hardware to manage and maintain
• Virtually anytime, anywhere, any device - Accessible from your IP connection via desk phone, PC, smart phone, or laptop
• Flexibility to grow - From basic voice to a full collaboration suite, modify the size and scope of your communications solution as needed
• Easy to Manage - Manage users and locations from a single portal
• Integrates with 30+ popular apps - Improve productivity by integrating with existing work applications/platforms

Features

• Unlimited calling within the U.S.
• Voice and Unified Communications options are available
• Enhanced Mobile option with native dialing delivers HD voice calling over AT&T VoLTE network for corporate mobile devices
• Conferencing, web meetings, and employee availability are unified in one application
• Cloud-based telephony features including auto attendant, hunt groups, call forwarding, voicemail, music on hold, and more
• Mobile app for most operating systems (iOS, Android) and service providers
• Available to use on virtually any device
• Single number reach

Simplify your communications so that you have what you need for your business now, with room for future growth.

AT&T Voice and Collaboration
AT&T CollaborateSM
Accelerate your business with AT&T Collaborate

- **Meet more effectively.** Now you can conveniently meet whenever, wherever, and however—whether formally or impromptu. You and your team can share documents to foster ideas while working together from different locations, in one seamless experience.
- **Get moving.** Your employees can turn their personal phones into business phones for more flexibility. Workers on the go can become more accessible, and when they use their own devices in the workplace they can create both personal and business profiles.
- **Never miss a call.** With advanced routing features such as simultaneous ring, sequential ring, and hunt groups, you can help ensure your customers can reach you the first time.
- **Work faster.** Your employees will have everything they need at their fingertips. With features like chat, voice, video, and desktop sharing, information can be conveyed more quickly so employee, partner, prospect, and customer interactions are simpler and more meaningful.
- **Improve your bottom line.** With the ability to access cloud-based telephony, it’s easy to add or change services across fixed and mobile devices, based on your needs. You can reduce travel expenses and overhead by using collaboration tools to meet and work remotely.

Create easy access to your corporate network from virtually anywhere, anytime, over nearly any device: desktop phones, tablets, smartphones, and computers.

Maximize network investments with integrated voice, web, and video capabilities that may scale as needed. AT&T Collaborate offers a simplified solution to enable you to communicate more efficiently. You'll also have the tools to help increase productivity and customer satisfaction, as your employees will have increased availability to deal with customer needs.

Looking for the right communication technologies and tools to consolidate your current infrastructure and maintain costs? Ready to change the way you collaborate and integrate applications? With AT&T Collaborate, you and your business can take advantage of cloud-based solutions that maximize your network investment and support future growth. AT&T Collaborate offers predicatable costs for the services you need, while reducing the complexity in your current technologies and positioning you for more advanced features to come.
