

To help you stay connected while your employees work remotely, AT&T is offering **Call Forward for the first 90-days of use at no charge** to existing AT&T IP Flexible Reach customers. Call Forward lets users forward their IP Flexible Reach telephone number to any phone number so they can be reached almost anywhere.

* Offer available to existing IP Flexible Reach customers only; Billing will commence after 90-day free period expires unless Customer terminates Enhanced Features; Offer not available to MIS Express or Fiber Broadband Bundle customers.

Offer includes IP Flexible Reach Enhanced Features, which provides:

- Call forwarding
- Sequential and simultaneous ringing.
- Web-based customer portal for feature self-management and reporting. Portal can be accessed from anywhere at any time using any internet connection.

Enhanced Features can be added efficiently and quickly. No Contract addendum is required for the 90-day free offer. Once Enhanced Features is installed, Customers have access to the web-based Customer Portal to begin using their new features. After expiration of the first 90-days of use, AT&T will commence billing unless Customer terminates Enhanced Features. Existing Customers without Enhanced Features in their contract will be required to sign an Addendum after the 90-day free period to continue receiving Enhanced Features.

*Offer valid 3/12/2020 to 5/31/2020.

Contact your Sales Representative for more details on how you can get the AT&T Enhanced Features package added to your IP Flexible Reach service.
