

AT&T has the right experience for your IoT migration

Prepare for 2G/3G network sunsets now

As your business plans for the upcoming 2G/3G network sunsets, you can rely on AT&T to help you migrate.

We have the experience, devices, and professional services to provide your business with a successful, future-ready upgrade to 4G LTE and (when available) 5G.

Business planning

Strategy

Roadmaps to success

There are
60M+
2G and 3G IoT cellular devices in the U.S. that are facing sunset.*

As of 1Q20, there are
69M
devices on the AT&T network as of 1Q20.

New technologies offer better performance — 4G LTE/5G can help provide:

Improved Internet of Things (IoT) applications

Better user experiences

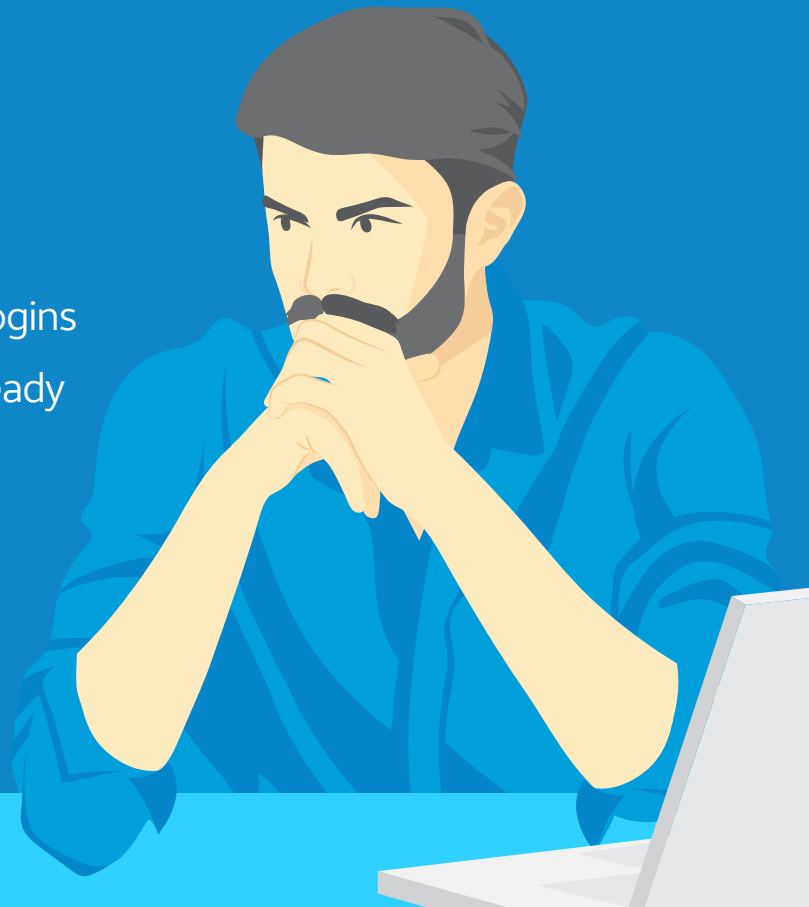

Enhanced business operations

Increased efficiencies

What customers need to consider in IoT migration:

- An experienced, full-service provider with gold-standard expertise in IoT
- Global coverage availability
- Consolidation of multiple carriers and logins
- Go-to-market strategy that is future-ready
- Network-based security
- Quality and flexibility of eSIM coverage
- Managing cost of IoT implementation
- A modernized mobile infrastructure

AT&T can help with your migration success

1

It starts with a thorough audit: Where and how are your existing devices being used? We can help you identify carrier network sunset dates and plan ahead.

3

Putting the right technology in place: We provide virtually seamless integration of technology across endpoints, connectivity, data in the cloud, and cybersecurity to help you maintain business operations during and after migration.

2

Planning your migration strategy and use case mapping: We will help you assess requirements, resources, timing, risks, and opportunities.

4

Aligning with us simplifies your migration journey: We are the leading IoT service provider in the U.S. with more than 69 million connected devices on the AT&T network as of 1Q20.

Why do more companies choose AT&T? Our customers benefit from a wide range of expertise:

- Highly secure, highly reliable global network
- The AT&T Foundry innovation centers
- AT&T Certification Lab
- Leading-edge platforms
- The AT&T Control Center with global connectivity
- Award-winning, 24/7 customer service
- Flexible, powerful solutions
- AT&T Professional Services

Industries include:

Transportation and supply chain

Agriculture

Sports and entertainment

Government

Manufacturing

Finance

Smart cities and grid

Healthcare

Retail
