

Boost your company's performance and efficiency with AT&T Dedicated Internet

Dedicated versus shared internet:

Looking for a worry free, simple, unshared internet experience?

With **5.3B** active users worldwide, the internet is a crowded place.*

Shared internet connections

Like broadband provide businesses the same pool of bandwidth **at the same time** that means performance **can fluctuate** in response to the number of any given users.

Dedicated internet gives businesses an unshared connection with **predictable service and exceptional performance.**

Get the fastest speeds**, more availability and guaranteed performance with

AT&T Dedicated Internet

* Source: International Telecommunications Union (ITU) <https://www.itu.int/itu-d/sites/statistics/2022> estimate

** Fastest speeds from 200Mbps to 1Tbps.

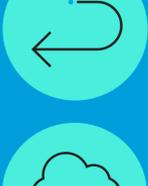

Dedicated internet offers:

Reliable: Connect employees, partners, and customers.

Secure: Get an extra level of security for your sensitive information with up to 5 static IP addresses and cyber threat analysis at no charge.

Dedicated service: Data transmission that is unshared and for your business's use only.

High versatility: Works with mission-critical applications such as Voice over Internet Protocol (VoIP), Virtual Private Networks (VPNs), and High Definition video conferencing.

Speed: Symmetrical access with upload and download speeds ranging up to 1 Tbps.

With dedicated internet's performance and reliability,

you can **avoid** service outages and **enhance** your customers' experiences.

- **Improve** online ordering
- **Provide** access to payment processing
- Prioritize video and file exchange traffic in **near-real time**
- **Support** critical cloud applications
- **Increase** the security of sensitive financial transactions
- **Facilitate** virtual teaching for education or healthcare
