AT&T Staff Alert works in hotel rooms and beyond:
In addition to keeping your staff secure, it can also assist with monitoring the following:

Building management:
- Safety alerts
- Building energy monitoring
- Lighting
- AC control based on room activity
- Weather monitors
- Air quality

Hotel equipment tracking:
- Crib and rollaway bed location
- Room service tray
- Luggage carts
- Cleaning carts
- Kitchen equipment

In addition to keeping your staff secure, it can also assist with monitoring the following:

Hospitality workers face unique security challenges
9 out of 10 hospitality workers have experienced or witnessed sexual harassment.
96% of hotel staff said they would feel safer with a panic button

Help keep hotel staff and valuable assets safe
A wireless alert button can help
A T& T Staff Alert is an Internet of Things (IoT) solution providing workers an easy-to-use security device. It operates as a personal panic button for use in emergencies to summon help to rooms and common areas.

Help protect workers and valuable property with AT&T Staff Alert
