

# AT&T Wireless Broadband

A flexible, wireless alternative to traditional broadband.

See how AT&T Wireless Broadband can work as a primary, secondary, or failover connection, connect remote sites, and be a cost-effective solution for your business. Plus, select plans can provide data prioritization for your business applications.

All plans support a 4G LTE or 5G/5G+ router or mobile hotspot device.\*

\*5G/5G+ services: Requires a compatible 5G/5G+ device. May not be available in your area. 5G+ is available only in very limited parts of select cities. See att.com/5Gforyou for coverage details. Plans with maximum data speeds may not experience the highest available speeds when accessing 5G/5G+ service. Other restrictions apply.

Works well with the following solutions:

AT&T SD-WAN

AT&T Mobile Threat Defense

AVPN/ANIRA

AccessMyLAN

FlexWare

## Flexible and fast deployment

- Instant Internet Connection with compatible router or hotspot
- Internet access when no wireline service available
- 100% mobile solution not bound by location

### Pharmacy Inventory Management

Your inventory is critical to your business-AT&T Wireless Broadband helps to ensure your cloud based inventory system has enterprise-connectivity when you need it.

### Construction Site Flexible Connections

A temporary, transferable Internet solution you can take with you after the job.

### State Fair Cost-effective Solutions

Provides a temporary POS system at the fairgrounds location.

### Coffee Shop Point of Sale

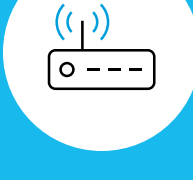

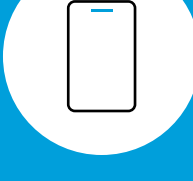

Prioritize your business-critical data originating on and traveling over the AT&T-owned domestic 4G LTE network to help maintain consistent connections, even when the network around you is congested. <sup>†</sup>

<sup>†</sup> Feature does not provide priority network access or prioritize eligible data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher priority level. Not available on 5G+ or 5G+ network or with the AT&T Wireless Broadband Essentials Plan. Other restrictions apply.

## Cost-effective solutions

Affordable equipment options and end-to-end solutions to suit every company's needs—from large to small. Plus, no overage charges to help control your costs and focus on your core business.

-  **Mobile Routers**
-  **Bring your own 5G/5G+ or 4G LTE- enabled device**
-  **Mobile hotspots**
