

# AT&T Private Cellular Networks - Events

## A temporary 5G+ solution

Bring 5G+ (mmWave) to your location and take your events to the next level with **AT&T Private Cellular Networks - Events**. A rapidly-deployed, dedicated 5G+ network for businesses and venues who want a temporary, enterprise-grade solution to enable 5G+ experiences.

## Sports and entertainment

Enrich fan experiences and enhance broadcasting coverage with a portable network that supports 5G+ devices and technology. Bring exciting, immersive interactivity to your venue.

### Transforming broadcasting and media coverage

Wireless video cameras allow broadcasters to get into the action and cover even more angles without cords.

### Game-changing experiences

Combining live-streaming video, mixed reality, and near-real-time stats can reinvent how fans connect to experiences.

## Interim 5G+ solutions

Building a 5G solution but it's not quite ready? Get connected now to start innovating with 5G+

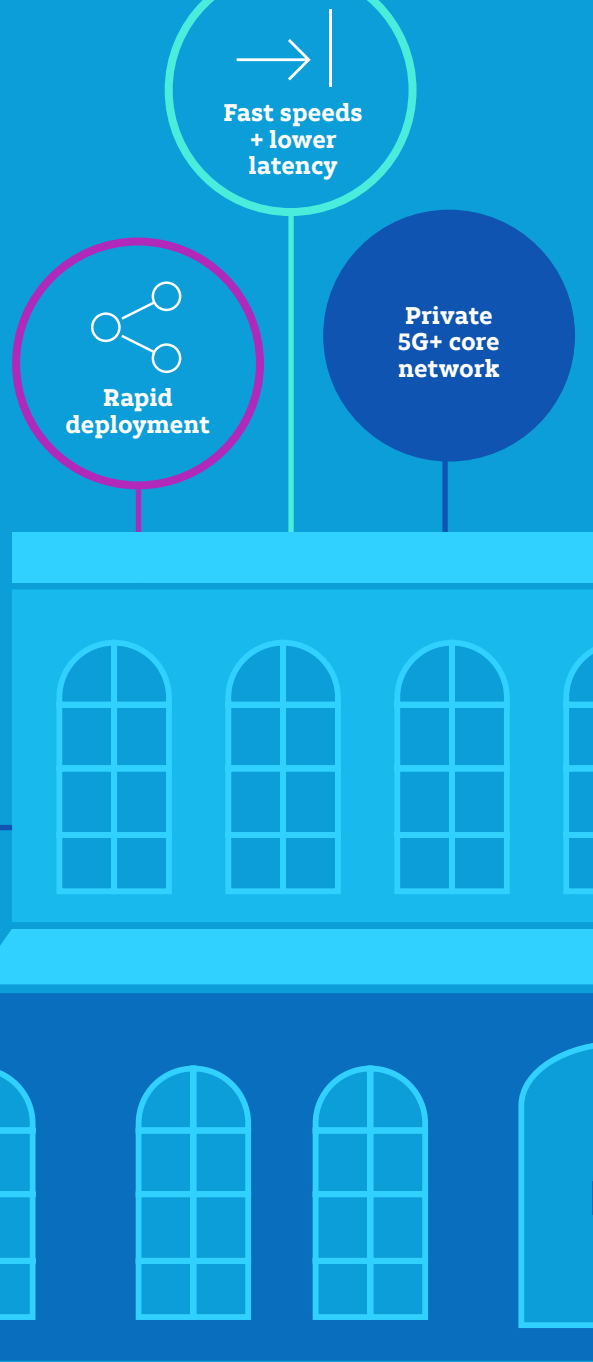

### Rapid 5G+ deployment

Turn-key solution includes hardware, software, and on-site professional services.

Site design, installation, support/maintenance for event duration

### Closed and dedicated

Your private network runs on dedicated 5G+ spectrum reducing variable service levels due to other mobility subscribers.

## Immersive experiences

Offer your patrons exciting experiences beyond their imaginations.

### Gaming events

Give fans the opportunity to be part of the game by supporting Augmented Reality (AR) applications and gaming.

Enrich fan experiences with 3D-rendered avatars.

### Hologram AR communications

Supports AR/Virtual Reality (VR) applications that demand reliable low latency with dedicated and private network designs.

Portable & temporary

Flexible onsite 5G+ design

Closed & Dedicated network

Turn-key solution
