

Move big data securely

Wavelength services utilizes Dense Wave Division Multiplexing (DWDM) by sending multiple data signals over the same fiber cable. It expands fiber's capacity and enables businesses to transfer large amounts of data quickly, privately, and securely.

Highly secure way to transfer data

from one point to another within metro areas or between them

Ultra everything

- Ultra-fast
- Ultra-low latency
- Ultra-high bandwidth

An industry leader

99.999%
Service Level Agreement

#1 U.S. Fiber Lit Buildings
for ninth consecutive year*

Ultra-low latency
.05 milliseconds

Fiber footprint

100+
metro areas

30M
fiber-passed locations¹

67M
internet-eligible locations

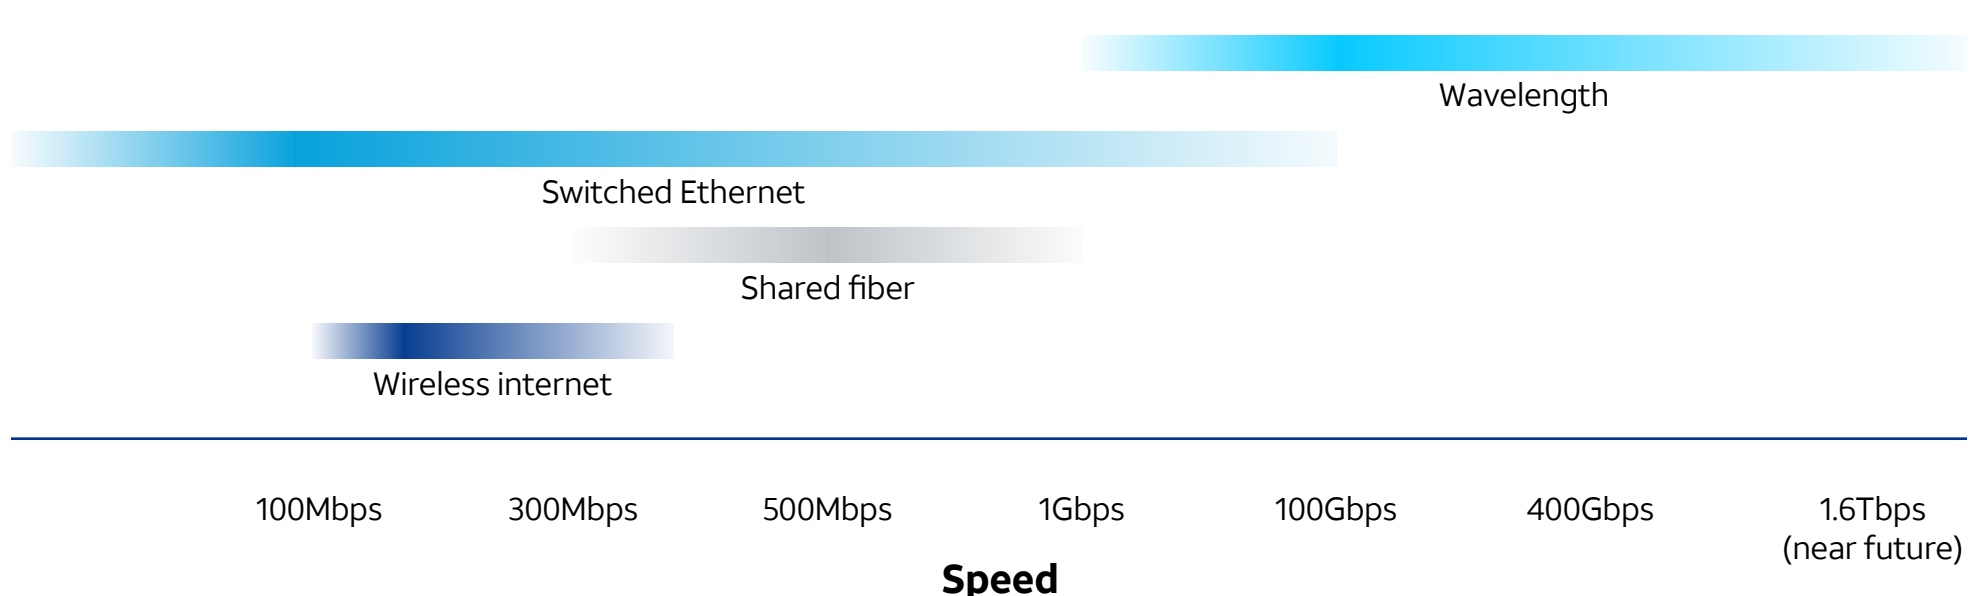

4.6k
wire centers

All data is accurate as of August 2025 unless otherwise noted

¹Includes consumer and business locations. 23.3M of these locations are sellable consumer locations. Data as of 1Q25

When it comes to ultra high-speed data transfer, AT&T Wavelength services are the premier options.

What can you achieve with wave-powered connectivity?

Hyperscalers and data centers

Offer high-capacity, secure, long-distance connectivity to help with:

- Access to data between regions to minimize loss
- Synchronize updates to enhance business continuity
- Back up data instantly to stay secure

Healthcare

Harness artificial intelligence (AI):

- Improve speed and accuracy of diagnoses
- Develop highly targeted treatments
- Improve patient outcomes

Financial services and banking

Embrace artificial intelligence (AI):

- Detect fraud as it happens
- Shut it down quickly and efficiently
- Real-time trading

AT&T Wavelength services offers 1G, 10G, 100G, and 400G speeds nationwide to move your business data securely.

Why AT&T Business

See how ultra-fast, reliable fiber, protected by built-in security, and 5G connectivity give you a new level of confidence in the possibilities of your network. Let our experts work with you to solve your challenges and accelerate outcomes. Your business deserves the AT&T Business difference—a new standard for networking.
