How AT&T Mobile Forms works

AT&T Mobile Forms app

Field workers collect info with the App and submit mobile form data in real time to managers and the back office system.

AT&T Mobile Forms web portal

Managers can create and dispatch forms, manage both mobile users as well as incoming and outgoing data.

Connect your data & report

Automatically generate and email custom PDFs of your forms. Connect all your data to cloud services and back office systems.

AT&T Mobile Forms app - Top features

Photo capture & Sketch Pad

Add an image and sketch on top of it to provide a visual and better report of on-site issues. Capture on-site signoff from workers and customers.

Bar/QR code scanning

Scan and instantly identify and integrate bar/QR codes from parts and models into forms.

Credit card payments

Accept credit card processing on your mobile device with AT&T Mobile Forms and close business transactions on the spot (North America only).

Offline form functionality

Fill out and send forms with or without connectivity. Forms are auto-sent once network is restored.

GPS & Time stamps

View location and time of field work performed, for accurate timesheet/work order information.

Calculations

Need an estimate? Calculate totals and get results right away. Perform calculations within forms and better confirm quotes.
