AT&T BUSINESS ENHANCED PRO PLANS: For eligible smartphones and tablets. **DATA RESTRICTION:** After 100GB of data usage on your line in a bill cycle, for the remainder of the cycle AT&T may temporarily slow data speeds if the network is busy. **VIDEO STREAMING:** Plan includes the Video Management feature. We aim to render streaming video in standard-definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at att.com/premier. Details at att.com/VideoFeature. **TETHERING/MOBILE HOTSPOT:** Tethering/mobile hotspot use is permitted with compatible devices. **AT&T BUSINESS FAST TRACK:** Requires compatible device. Feature uses network-based quality of service technology to provide eligible CRU lines with a differentiated (i.e., enhanced versus "best efforts") network experience for the first 100GB per month of eligible business data traffic originating on and traversing over the AT&T-owned domestic 4G LTE network (excluding microcells, AT&T Wi-Fi service, and roaming partners' networks), benefiting you during times of network congestion. **Limitations:** Feature applies to a maximum of 100GB of eligible data usage per month. After your Business Fast Track allowance is exhausted in a bill cycle, all data traffic will be handled on a "best-efforts" basis until the beginning of the next billing cycle. Feature usage allowance does not rollover. Feature is intended for business application data traffic only and does not (a) prioritize CRU data traffic ahead of all other data traffic (which may receive a similar or higher priority level), (b) provide priority access to available AT&T network resources, or (c) provide preemption capabilities. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if your usage is inconsistent with its intended use or the Business Agreement. **AT&T ROAM LATIN AMERICA FOR BUSINESS: Availability: If plan is added to a CRU phone line that has a Block International Roaming and/or Block International Calling feature, AT&T will not add Roam Latin America for Business to the line until you remove the existing block feature(s).** You can remove blocking feature(s) at any time at att.com/premier, by calling 800-331-0500, or by contacting your AT&T account representative. **Countries:** For a list of included countries, go to att.com/latamcountries. Countries are subject to change without notice. Coverage and data speeds vary by country (may be at 3G speed) and may change without notice. Coverage not available in all areas. **Unlimited Talk, Text and Data Usage:** This feature allows you to use data in an included country, make calls between included countries and from included countries to the U.S. and any country included in International Day Pass for Business (**IDPB**), and send text messages in an included country without roaming charges. **Calls made to included countries while in the U.S. are not included.** Text messages received are rated as domestic. Unlimited text applies only to AT&T Short Messaging Service (SMS) and Multimedia Messaging Service (MMS) and not to other messaging services or applications like iMessage. **Excessive Use/Abuse:** This feature is intended for roaming use by customers with a primary place of use in the DCA during periods of travel to included countries only. Predominantly using your domestic plan in one or more of the included countries may result in this feature being removed from your account. **Incidental Data Usage:** Apps on your device use data even when you may not be aware. **Calls to Non-IDPB Countries:** Calls from included Latin America countries to countries not included in IDPB will get International Long Distance (ILD) charges. For a list of IDPB countries, go to att.com/globalcountries. Pay-per-use rates apply unless you add an ILD package to your device. Rates are subject to change without notice. For details, go to att.com/intlcalling. **AT&T Business Passport and Other International Roaming Packages:** For devices with an active recurring Business Enhanced International, Business Passport, IDPB, or other international roaming package that also covers the included Latin America countries, this feature will apply in included Latin America countries and will not reduce the existing package's talk, text and/or data allowance or trigger package charges. **Pay-per-use rates:** Apply when traveling in countries not included and/or when you have not added another international usage package. For rates, see att.com/intlppurates. **Service restrictions:** International use aboard cruise ships and airlines is not included. **AT&T BUSINESS ENHANCED INTERNATIONAL PACKAGES:** AT&T Business Enhanced International Data, Talk and Text package requires compatible phone; AT&T Business Enhanced International Data package requires compatible tablet. **Availability: If plan is added to a CRU line that has a Block International Roaming and/or Block International Calling feature, AT&T will not add the available Business Enhanced International package to the line until you remove the existing block feature(s).** You can remove blocking feature(s) at any time at att.com/premier, by calling 800-331-0500, or by contacting your AT&T account representative. **If plan is added to a CRU line that already has IDPB, Passport, Passport Pro or another international roaming package, the existing package will control and AT&T will not add the available AT&T Business Enhanced International package to the line until you remove the existing roaming package.** You can manage your existing international roaming package at any time at att.com/premier, by calling 800.331.0500, or by contacting your AT&T account representative. **Countries:** Includes talk, text and/or data coverage (depending on your device) in countries listed at att.com/globalcountries (see International Day Pass list). Coverage not available in all areas. Countries and rates are subject to change without notice. **Mexico and Canada:** Because plan includes usage in Mexico and Canada, usage in those countries will not diminish your package voice and/or data allowance or bill your package voice and/or data overage charges. **Data:** Includes 1GB for use in package countries. Monthly data allowance must be used in the billing period provided or will be forfeited. Actual data speeds vary by device and location and may be at 2G speeds. **Data Overage:** If you use all your package data in a billing period, we'll automatically add more data in increments of 1GB at $15 per GB, which must be used in the billing period provided or will be forfeited. **Video Streaming:** Package is subject to the Video Management feature included in your plan. **Voice:** Phones only. Includes 100 minutes for cellular calls dialed or accepted in package countries. Monthly voice allowance must be used in the billing period provided or will be forfeited. **Voice Overage:** If you use all your package minutes in a billing period, a pay-per-use rate of $0.20 per minute will apply. **Wi-Fi Calling:** With Wi-Fi Calling, you can call back to the U.S. at no additional charge. Calls to other countries, including the country you're in, are subject to package voice allowance and overage rate. **Unlimited Messaging:** Compatible phones only. Package applies only to text and picture/video messages (AT&T Short Messaging Service (SMS) and Multimedia Messaging Service (MMS)) and not to other messaging services/applications. **Pay-per-use rates:** Apply when traveling in countries not included and/or when you have not added another international usage package. For rates, see att.com/intlppurates. **Service restrictions:** International use aboard cruise ships and airlines is not included. **AT&T ACTIVEARMOR℠ ADVANCED MOBILE SECURITY:** Requires compatible device and plan, download of ActiveArmor App and acceptance of terms of service (see att.com/activearmormseula). Details at att.com/activearmorapp. **Spam Risk and Auto Fraud Call Blocking:** May inadvertently block wanted calls; settings can be adjusted in the app. **Identity Monitoring:** May not detect all compromises or leaks of your personal data. **Public Wi-Fi Protection:** Requires setup; does not guarantee complete security for your data. Automatically enabled when your device joins a public (unencrypted) Wi-Fi network unless an alternate VPN service is active. Does not work while roaming internationally.
