AT&T Business Unlimited BasicSM Plans: Data Restrictions: For all data usage, you may temporarily experience reduced speeds on these line(s) during times of network congestion. Plan is not eligible for Stream Saver. For content we can identify as video, wireless streaming speed will be slowed to a max of 1.5 Mbps, at Standard Definition quality (about 480p). Video speed is capped at this amount, regardless of the network device is on (for example, 4G LTE). Ability to stream, video resolution, and other data usage (including speed) are not guaranteed, may vary, and be affected by a variety of other factors. Other restrictions apply. Tethering/mobile hotspot use prohibited except for Connected Cars.

AT&T Business Unlimited PlusSM Plans: Data Restrictions: After 25GB of data usage on a line in a bill cycle, for the remainder of the cycle you may temporarily experience reduced speeds on that line during times of network congestion. AT&T will activate the feature for you. You can turn it off or back on at any time at att.com/premier or call 611. Stream Saver will not recognize all video content. Ability to stream and video resolution may vary, and be affected by other factors. Restrictions apply. Details at att.com/stream saver. HD Video: You can turn Stream Saver off at any time to enjoy access to High Definition video streaming, if available. Tethering/Mobile Hotspot: Requires compatible device. Includes up to 15GB per line per month. After 15GB, tethering speed slowed to a max of 128 Kbps for the rest of the bill cycle except for Connected Cars. After this, all tethering data usage, including sponsored data, will be impacted and not fully functional.
