If you purchased a device that requires a service commitment, an **Early Termination/Cancellation Fee** applies if you cancel CRU service after the first 30 days and before the service commitment ends. See att.com/returns for details on what fee applies for your device and how the fee is prorated over time. Credit approval may be required. AT&T reserves the right to suspend or terminate service to your account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan. **ADDITIONAL MONTHLY FEES AND TAXES:** Apply per line and include Regulatory Cost Recovery Fee (up to \$1.50), Administrative Fee (up to \$1.99), Property Tax Allotment surcharge (\$0.20-\$0.45) and other AT&T fees which are not government-required surcharges, as well as government taxes. Tethering is allowed with compatible devices. **VIDEO STREAMING:** Plan includes the Video Management feature. We aim to render streaming video in standard-definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at att.com/premier. Details at att.com/VideoFeature. **INTERNATIONAL ROAMING:** Plan includes data coverage in over 210 countries listed at att.com/globalcountries. Coverage is not available in all areas and excludes cruise ships and airlines. Countries are subject to change without notice. Actual data speeds vary by device and location. Stream Saver will also apply to international roaming data usage. **Limits: Plan is not intended for CRU lines with primary or full-time usage outside the DCA.** If (a) a CRU line's international roaming data usage in any one month exceeds 25% of the CRU line's total (domestic and international) data usage for the prior 12 month period (starting from such month), or (b) the CRU line does not have measurable voice or data usage on the AT&T-owned domestic network at least once per calendar month, then AT&T may at its sole discretion: (i) suspend the CRU line without notice, (ii) block the CRU line's access to international roaming under this plan without notice, (iii) migrate the CRU line to a domestic plan and international feature combination that imposes metered usage charges for international roaming, imposes additional limits on the list of included countries, or reduces the international roaming data throughput speed, and/or (iv) terminate the CRU line. For example only: If a CRU line had 1GB per month of domestic data usage between Jan 2020 and November 2020, 1GB per month of international roaming data usage between January 2020 and November 2020, and 1GB of domestic data usage and 10GB of international roaming data use in December 2020, the CRU line would be in violation of the international roaming data use restriction because the 10GB of international roaming data usage in December exceeds 25% of the CRU line's 33GB in total domestic and international data use for the January to December period. **Pay-Per-Use Rates:** Pay-per-use rates will apply when traveling in other countries and locations not included in this plan (unless you purchase a separate package that includes such usage). Applicable pay-per-use rates are: (a) \$0.00195 per kilobyte for data use when traveling in other countries not included in your Domestic and International Data - Select plan, (b) \$0.002 per kilobyte for data use aboard cruise ships, and (c) all other international data, talk and text rates found at att.com/intlppurates. **MISCELLANEOUS:** Plan is not available for purchase in AT&T retail stores and select other channels. **Business Agreement Discounts:** Plan is not eligible for any CRU service discount described in your Business Agreement. **COVERAGE:** Coverage may include areas that are served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Coverage is subject to change without notice. **OFF-NET USAGE:** International and domestic off-net (roaming) data usage may be at 2G speeds. **Excessive Off-Net Usage:** You get an off-net (roaming) usage allowance for each service. If you exceed the allowance, your service(s) may be restricted or terminated. See your Business Agreement for more details.
