Increase business velocity with construction business solutions from AT&T

Enhance project team collaboration and communication by deploying mobile devices, data and video services.

**CONSTRUCT**

- **Mobile Safety & TelePresence**
  - Reduce construction site inspection process by 15 hours per week by deploying mobile safety solutions with AT&T’s Telepresence solution.
  - Reduce the need for travel.

- **Mobile Asset Management & TelePresence**
  - Reduce survey time by 50% by deploying Telepresence solutions in a project trailer.
  - Increase productivity by day-one.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

- **Enhanced Mobile Punch**
  - Reduce punch listing process by 50%.
  - Improve the accuracy of punch listing processes.

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Data Collection**
  - Provide tamper-resistant location and tracking solutions from AT&T.
  - Improve equipment uptime through real-time access to drawings and Blueprints.

- **Mobile Asset Tracking Solutions**
  - Improve equipment management through location awareness.
  - Increase asset visibility within the construction process.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**OWN AND OPERATE**

- **Building Automation**
  - Control and manage HVAC equipment for maximum comfort and energy efficiency.

- **Communications**
  - Provide high-speed, reliable data connectivity for project offices, temporary offices, or job sites.

- **Wide Area Network Connectivity**
  - Access the internet, corporate intranets, and e-mail from remote locations.

**PLANNING**

- **Enhanced Mobile Punch**
  - Reduce punch listing process by 50%.
  - Improve the accuracy of punch listing processes.

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Phase Design**
  - Design and construct a project trailer.
  - Improve productivity with day-one.

**MONITORING**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**CONNECTING**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**DEPLOYING**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**QUALITY**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**MAINTENANCE**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**COMMISSIONING**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**PROJECT MANAGEMENT**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**TECHNOLOGY**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**REGULATORY**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.

**FUNCTIONALITY**

- **Mobile Facilities**
  - Improve energy management by meter, and device by device.
  - Automatically measure, monitor, and collect data for a building energy program to ensure regulatory compliance and energy savings.

- **Mobile Quality Inspections – Punch Listing**
  - Improve quality assurance and punch listing processes through turn-key, scalable conferencing solutions.
  - Reduce the need for RFI or change order with real-time access to drawings and Blueprints.
