About Frankfurt (FRA1)

AT&T helps businesses connect to their customers, suppliers and partners through our highly secure and reliable data centers. Our data centers provide high bandwidth and low latency connections through the AT&T network, one of the most powerful and advanced IP/Multiprotocol Label Switching (MPLS) networks in the world. For decades, we’ve helped define how the data center industry operates. With the extensive global coverage at our own data centers (in locations like Amsterdam, London, Hong Kong, Singapore and Sydney) and alliances with other major data center operators, AT&T offers collocation availability at more than 300 facilities in 16 countries.

Frankfurt is the business and financial center of Germany and the largest city in the German state of Hesse. The city is known for its futuristic skyline and the busiest German airport. Located on the river Main, Frankfurt is the financial capital of Continental Europe and the transportation center of Germany. The city is the home of the European Central Bank and German Stock Exchange, in addition to many tech, chemical and pharmaceutical companies.
