About Shanghai (SH3)  

AT&T helps businesses connect to their customers, suppliers and partners through our highly secure and reliable data centers. Our data centers provide high bandwidth and low latency connections through the AT&T network, one of the most powerful and advanced IP/Multiprotocol Label Switching (MPLS) networks in the world. For decades, we’ve helped define how the data center industry operates. With the extensive global coverage at our own data centers (in locations like Amsterdam, London, Hong Kong, Singapore and Sydney) and alliances with other major data center operators, AT&T offers collocation availability at more than 300 facilities in 16 countries.

Shanghai is the most populous city in China and the most populous city proper in the world. It is one of the four directly-controlled municipalities of China, with a population of more than 24 million as of 2014. It is a global financial centre, and a transport hub with the world’s busiest container port. Located in the Yangtze River Delta in East China, Shanghai sits on the south edge of the mouth of the Yangtze in the middle portion of the Chinese coast. The data center is located in the Zhangjiang Hi-Tech Park. The Shanghai Zhangjiang Hi-Tech Park was established in July of 1992 as a national-level park designated for the development of new and high technology.

### Location

Shanghai Data Solutions IDC, No. 4 building, 400 Fangchun Rd, Zhangjiang Hi-tech Park, Pudong, Shanghai, China

- **From Airport:** 16 miles* from Pudong International Airport
- **Location:** N/A
- **Parking:** On site parking

*approximate mileage

### Profile

**Data Center**
- **Overall:** 96,840 sq. ft.
- **Raised Floor:** 4,696 sq. ft.
- **Office Space:** None
- **Site Area:** Light industrial
- **Seismic Zone:** Zone 3
- **Built:** N/A
- **Retrofitted:** N/A

- **Amenities**
  - Customer Lounge: Yes
  - Conference Room: Yes

**Telco Information**
- **NPA / NXX:**
- **CLLI Code:** SHNGCINU
- **POP:** N/A

### Build Out

**Types:** Cage, Locking Cabinets

- **Standard Rack:** 42U
- **Raised Floor Load:** 150 lbs. / sq. ft.
- **Sub Floor Load:** 300 lbs. / sq. ft.
- **Cross Connect:** Copper, fiber, coaxial
- **Remote Hands:** 24x7
- **Loading Dock:** Yes

### Cooling

**HVAC Distribution:** N+1

- **HVAC System:** Air cooled
- **Chillers:** N/A

### Fire Protection

**Fire Alarm:** VESDA (air sampling) smoke detection and alarm system

**Fire Suppression**
- **Data Center Areas:** Inergen Gas
- **Non-Equipment Areas:** Wet Sprinkler

### Audit / Cert. Standards

- SSAE 16
- ISO 27001
- PCI v3.2

### Network

**Internet:** Two High speed uplinks to the SDS Multi ISP Network

**Redundancy:** Redundant and path-diverse entrances and exits

### Power

**Electrical Capacity**
- 120 w per sq. ft.

**Cabinet (3.0 Kw)**

**UPS Configuration:** 2N

**# Utility Feeders:** 2 separate substations

**Standby Power Config:** N+1

**Stand By Power:** Four 2,000 Kva diesel generators, 48 hrs of fuel at full load in above ground storage tanks

### Physical Security

**Physical:** Mantrap

**Staffing:** 24x7

**Electronic:** Closed Circuit Monitors, Secure Key-Card Access, Biometrics Scanner, and Alarmed Doors

### SLA

Services historically meet or exceed 99.999% availability
