

GWAC & IDIQ Contracts

READY, SET, PROCURE.

Complex Capabilities. Simplified Procurement.

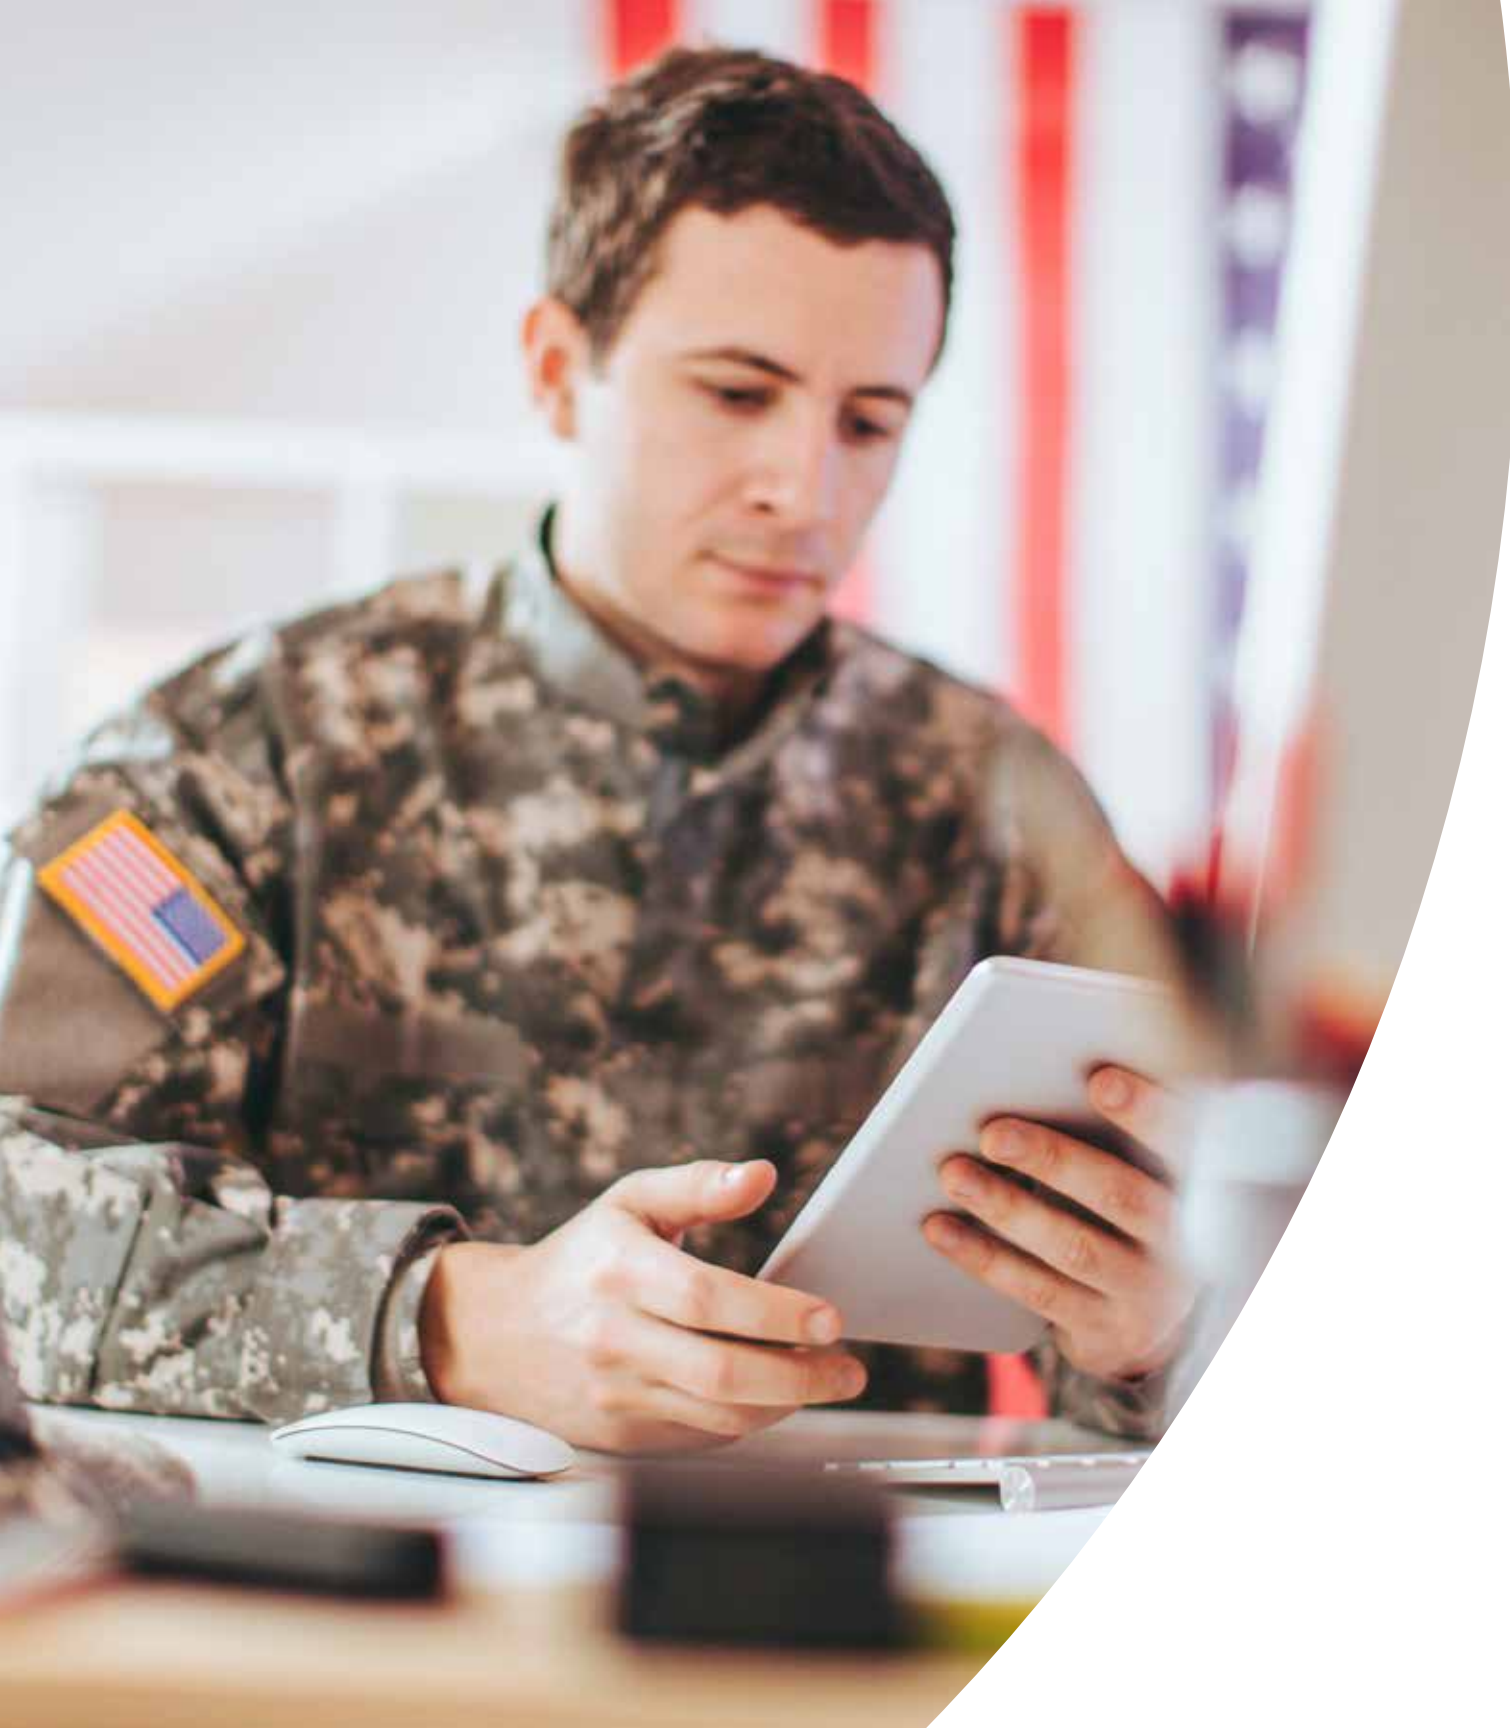

Whether you are procuring a complex IT solution or simply ordering a systems component, there are many viable contract alternatives to consider when sourcing your agency or department IT needs with AT&T. Technology is rapidly changing and IT requirements need to keep pace. Today, it's all about the data. From audio to video, empirical, digital, structured, unstructured, linked, networked, mobile, event or real-time data, AT&T can support your mission.

In the past decade, there has been a 250,000 percent increase in data traffic over the AT&T network, with the daily average now at 197 petabytes. Over the past 5 years (2013-2017), AT&T invested more than \$140 billion in our wireless and wireline networks, including capital investments and acquisition of wireless spectrum and operations. This includes the largest investment in the United States by any public company.

Having to manage multiple procurement actions to acquire the technology capabilities you need is inefficient, costly and time consuming. AT&T holds prime contractor status on an array of competitively bid and awarded government wide acquisition contracts (GWAC) and indefinite delivery/indefinite quantity (IDIQ) contracting options to deliver the technical solutions you need, when you need them. These contracts are designed to help agencies buy end to end IT capabilities, more efficiently and economically.

AT&T is proud to have been awarded prime contractor status on some of the most technically comprehensive and frequently used government IT contract vehicles. Our prime contractor status on many GSA and agency sponsored vehicles such as **Alliant**, **Connections II**, **SEWP** and **CIO-CS** enables agencies to obtain the hardware, software and professional services necessary to deliver a total solution—with just one procurement action instead of many.

INSIDE
5 Alliant
6 Connections II
9 SEWP V
10 NIH CIO-CS

Alliant

AT&T is a prime contractor on the GSA Alliant GWAC, GSA's premier IT Solutions and IT Professional Services contract vehicle which may be used anywhere in the world. It has been designated by the Office of Management and Budget (OMB) as a Best-in-Class (BIC) contract. Over 3 billion dollars in task orders were awarded on Alliant during GFY 2017. Alliant's flexible technical scope makes it possible for your agency to acquire hardware, software and professional IT services—providing everything you need for a complete IT solution in just one procurement action. Whether it's web conferencing, unified communications, analytic services or any one of a host of other innovations, Alliant can deliver. This can save both time and department budget dollars since delegated use of the contract costs only .75% and contract access fee caps also exist.

KEY PROCUREMENT POINTS

- GSA's premier IT Solutions GWAC
- Can be used anywhere in the world
- Complete IT solutions may be purchased with one procurement action
- Tasks extending until 2024 may be awarded on the contract right up to the end of the master contract's period of performance

Alliant Contract Number	GS00Q09BGD0015
Period of Performance	04/01/2009–04/30/2019
Place of Performance	CONUS, OCONUS
Primary NAICS Code	541512, Computer Systems Design Services
Contract Types Allowed	All; Firm Fixed-price, Cost-reimbursement, Labor-hour and Time-and-materials
Cost of Use	0.75% GSA Fee

Connections II

AT&T is a prime contractor on the GSA Connections II contract. Connections II is designed for the comprehensive enabling of campuses, military bases or government buildings with communications infrastructure. It offers multi-component solutions for your agency or department's communications needs. Support and ancillary services include design, installation and implementation, transition planning and integration. Connections II can also be used for purchases of hardware only. Access fees are both low and capped.

KEY PROCUREMENT POINTS

- Designed for campuses, military bases or government buildings
- Communications leaning contract
- May also be used for equipment-only purchases
- Available for any federal entity, anywhere in the world

Connections II Contract Number	GS00Q12NSD0001

Place of Performance	CONUS, OCONUS
Primary NAICS Code	541512, Computer Systems Design Services
Contract Types Allowed	Firm Fixed-price, Time-and-materials
Cost of Use	1.5% GSA Fee

SEWP V

(Solutions for Enterprise Wide Procurement)

SEWP V is NASA's multi-award GWAC. It can be used anywhere in the world and features thousands of commercial IT products and product based services. Everything from tablets to remote sensors, software to AV conferencing systems, system installation to cloud virtualization, maintenance and warranty services may be obtained on the SEWP contract. Its access fee is among the lowest of government wide acquisition contracts.

KEY PROCUREMENT POINTS

- AT&T is the sole telecommunications carrier among the 145 prime contract holders listed on SEWP
- SEWP is a firm, fixed price contract
- Features thousands of commercial IT products and product based services
- Managed telecommunication services can be procured

SEWP V Contract Number	NNG 15SE 02B
Period of Performance	05/01/2015–04/30/2025
Place of Performance	CONUS, OCONUS
Primary NAICS Code	541519, Other Computer Related Services
Contract Types Allowed	Firm Fixed-price
Cost of Use	0.375%

NIH CIO-CS

The National Institute of Health’s CIO-CS GWAC contract offers IT commodities using on premise and managed services models. CIO-CS has also been designated as a Best-in-Class (BIC) contract by the Office of Management and Budget (OMB) and can be used anywhere in the world by any federal entity. CIO-CS can provide IT commodities and technical refresh needs from a core group of carefully pre-vetted vendors. CIO-CS also offers cloud-based collaboration services including email as a service, SharePoint, video/web conferencing, mobility, CRM and more. Contract access fees are as low as .35%.

KEY PROCUREMENT POINTS

- AT&T is the sole telecommunications carrier among the 210 contract holders listed on CIO-CS
- Can be used by any Federal Civilian or Department of Defense (DoD) agency
- Multi-component solutions can be designed, competed and awarded on CIO-CS
- Accommodates most major contract types except for T&M

CIO-CS Contract Number	HHSN 316 2015 00003W
Period of Performance	04/14/2015–04/30/2020
Place of Performance	CONUS, OCONUS
Primary NAICS Code	334111, Electronic Computer Manufacturing; 541519, Information Technology Value Added Reseller
