Asset Tracker 1
Cost effective, low power LTE-M

One of the smallest and most cost effective equipment trackers on the market, the Asset Tracker 1 (AT1) provides you an unparalleled insight over your high-value assets in the field. Quickly locate and check the status of machinery, equipment, tools and toolboxes, cargo, and more - all from your smartphone. The AT1 device runs on LTE-M, the first network on a dedicated spectrum that is optimized for IoT.

Equipped with humidity, temperature, light and impact sensors, the AT1 gives you the mission-critical visibility without the need for onsite supervision. Remove the worry and guesswork from managing your assets, and empower your team to dedicate more focus to customer service and expanding business opportunities.

Innovative solutions for diverse business needs

Construction services
Minimize instances of lost or stolen loading trailers, bobcats, generators, and other machinery.

Transportation
Monitor the location of trailers and environment status within the trailer to provide proof of cargo integrity.

Paramedic and EMS services
Get notifications when high-value tools are left behind or impact-sensitive equipment is dislodged.

Trade services
Ensure all your high-value tools and inventory are where they are supposed to be, outdoors or inside storage.

Agricultural operations
Automate irrigation and other activities triggered by changes in environmental humidity and temperature.
