

Take your office on the road with Wi-Fi hotspot connectivity

Activate your GM vehicle Wi-Fi hotspot with AT&T data plans

What if you and your employees could take Wi-Fi with you on the road? Connected Car Wi-Fi hotspots, which are already embedded in new eligible GM fleet vehicles, offer nearly unlimited opportunities for business productivity. Leverage this technology, powered by the AT&T 4G LTE network, to help your mobile workforce get more done.

Activate the Connected Car Wi-Fi hotspots with an AT&T data rate plan, and help

your staff achieve maximum efficiency potential while in the field.

Take your office with you

Your eligible GM* fleet vehicles are already equipped with powerful antennas and embedded hotspot wireless connectivity. When activated, hotspots maintain connections up to 50 feet from vehicles and can connect to multiple devices, such as smartphones, tablets, and laptops.

AT&T Mobile SelectSM plans for business

Get flexible pooled data for your mobile workforce. Each vehicle brings its own plan's data allowance to the data pool. Overages and underages are netted out at the end of the month. As users come and go, the data pool goes up and down depending on individual contribution. Pooled data plans for businesses allow light users to help balance out heavy users within a single billing account. More information on [Pooled Data plans](#) can be found [here](#).
