AT&T MOBILE SELECT - POOLED PLANS: Prices are for service only. **Eligibility:** Available only to business and government customers with a qualified AT&T wireless service agreement and only for their Corporate Responsibility User ("CRU") lines of service. For full service terms and conditions of service, see applicable wireless service agreement, including without limitation the Additional Service- and Equipment-Related Terms found at att.com/abs-additional-terms ("Business Agreement"). **Devices:** Sold separately. Installment plan charges and other device purchase costs are extra. A limit on the number of financed devices per wireless account may apply. **Monthly Service Charges:** The monthly service charges of Mobile Select - Pooled plans for smartphones that are purchased at full price, purchased with a qualified installment agreement, bring your own, or on a month-to-month term are discounted by \$25 per month as compared to the standard monthly service charges of plans for smartphones with a 2-year service commitment. The plan discount will appear as a credit on your bill. **Loss of Monthly Service Charge Discount with 2-year Smartphone Upgrade:** If upgrading to a smartphone with a 2-year service commitment, you will lose the plan discount for that CRU line. **Data:** For use in the United States, Puerto Rico and U.S. Virgin Islands (the "Domestic Coverage Area" or "DCA") only. Plans for phones and \$20/mo. and higher plans for data-only devices also include data usage in Mexico for compatible data-only devices (see Mexico Service Restrictions below). Plans also include usage in Canada for select connected vehicles only. Additional or promotional data may not be available for use outside the DCA. **Tethering and Mobile Hotspot:** Use for up to 5 simultaneous devices. Tethering requires compatible device. **Video Streaming:** Includes the Stream Saver feature which allows you to save data on content by streaming higher definition video in Standard Definition quality (about 480p) on compatible devices (unless the video provider has opted out). AT&T will activate the feature for you. Check your account online to see if the feature is active. Once active, you can turn it off or back on at any time online at wireless.att.com/business. Stream Saver will not recognize all video content. Ability to stream and video resolution may vary, and be affected by other factors. Restrictions apply. See att.com/streamssaver for more details. **Pooled Data:** Within a single Billing Account Number ("BAN"), CRUs activated on Mobile Select - Pooled plans that include pooled data are combined to create a "Data Pool". Every billing cycle, each CRU first uses his or her plan's included data allotment ("Data Allowance"), if any. If a CRU does not use all of the plan's Data Allowance, it creates an underage in the amount of the unused Data Allowance ("Under Usage"). If a CRU uses more than the plan's Data Allowance (e.g., any CRU with a 0GB plan), the CRU incurs Data Overage charges in the amount of the excess data usage ("Over Usage"). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for CRU lines in the Data Pool and the total Over Usage amounts for CRU lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among each CRU in the Data Pool with Over Usage, resulting in per line credits on your invoice equal to each such CRU line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount, then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each CRU's Data Overage charges to determine each such CRU's share of the total Under Usage amount, resulting in per line credits on your invoice to partially offset each such CRU's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1000 KB of Over Usage (which means an allocation factor of 10%), then your invoice will show, with respect to each CRU line with Over Usage, both (a) the CRU's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the CRU's Data Overage charges. Changing or migrating CRU lines to Mobile Select - Pooled plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If your organization's Foundation Account Number ("FAN") has multiple BANs, you may have one Data Pool for each BAN under the FAN; however, CRU lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each CRU line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of CRU lines in a Data Pool due to business needs and system limitations. **Data Overage:** If you exceed the total amount of data in your Data Pool during your billing period, a pay-per-use rate of \$0.000009536 per kilobyte ("KB") will apply. 1,024 KB = 1 megabyte ("MB"); 1,048,576 KB = 1 gigabyte ("GB"). **UNLIMITED TALK:** For phones (including Connected Wearables) only. Includes unlimited calls within the DCA (plans for smartphones and feature phones also include calls within Mexico). Service may be terminated for excessive roaming (see Business Agreement). **Unlimited Nationwide Calling:** For WHP and WHPI only.
