

# AT&T Workforce Manager

The end-to-end workforce management application

## How can AT&T Workforce Manager help you?

### Energy

- Dispatch new job assignments quickly
- Decrease fuel expenses
- Receive safe-driving alerts

### Field Services

- Manage time and attendance
- Calculate labor cost using field data
- Monitor crew locations

### Public Services

- Get email reports of mobile-employee activities
- Reduce expenses by using less paper
- Automate workforce activities, such as time-clock reports

### Construction

- Clock in and out on mobile devices
- Keep track of asset locations
- Collect field data to send back to office

### Government & Education

- Improve payroll accuracy and automation
- Use integrated EPTT to stay in contact with staff
- Track students' bus locations

### Healthcare

- Orchestrate efficient patient medical transportation
- Update customers with caregiver locations
- Promote safety for home care providers with near real-time monitoring

### Manufacturing

- Maintain accurate inventory records
- Staff efficiently using PTO tracking
- Prioritize orders based on urgency

## MANAGEMENT MADE EASY

Benefit from a suite of practical tools that increases efficiency and connects you with workers and assets like never before. These robust features combine to form a single solution designed to help your business become a modern, productive workforce, no matter the industry.

### Wireless forms

Build and generate forms that are easy to deploy

### Dispatching

Streamline daily tasks and improve customer service

### Integrated EPTT

Conduct group or individual calls within the application, with the addition of EPTT

### Timekeeping

Employees can clock in and out from the field

### Intelligent tracking

GPS tracking gives a clear view of employees' locations

### Redefine group communication

Preconfigure group calls of up to 250 AT&T EPTT users, so your urgent messages are relayed faster.

### Communicate without delay

Break into an active individual or group call to relay any pressing messages instantly.

### Reimagine remote monitoring

Know exactly where staff is with individual location sharing, group tracking, and supervisory geofencing.

### Dispatch with ease

Send new job assignments to technicians direct from the worker tracking screen.

AT&T WORKFORCE MANAGER WITH

**EPTT\***
