

Microsoft Office 365 integration

Office@Hand for Microsoft Office 365™ creates a powerful best-of-breed solution that gives Microsoft Office 365 the best of both worlds: enterprise-caliber communications—PSTN calling click-to-dial, SMS, combined directory experience, conferencing, and integrated calendaring—integrated into the most popular productivity suite.

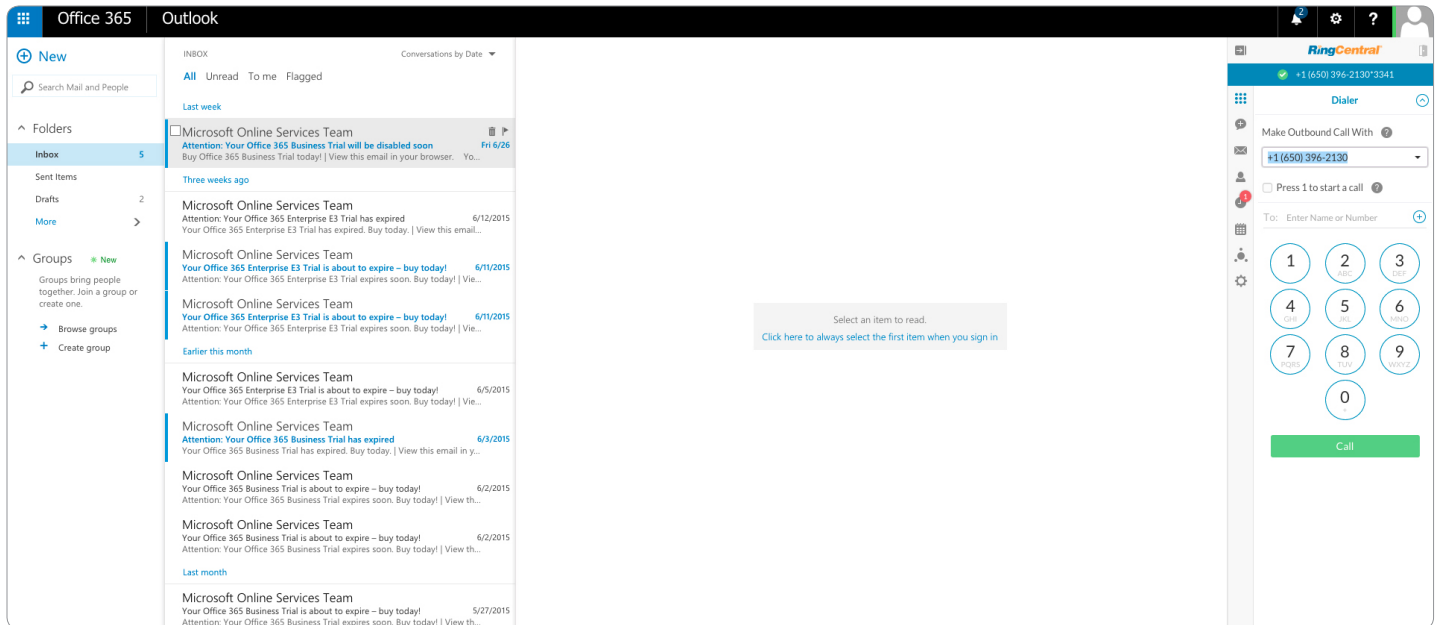

With all of your business communications in one place, you and your workforce can be more productive and work more efficiently.

Features and benefits

- Make and receive calls directly from Office 365 Mail or Contacts applications with your Office@Hand phone number.
- Click to dial any phone number that appears in Office 365 Mail or Contacts.
- View incoming caller IDs while working within Office 365 Mail.
- Send and receive text messages from the Office 365 interface.
- View your complete communications history—calls, texts, faxes, and voicemails—from Office 365 Mail.
- Combine Office@Hand and Office 365 Contacts on one easy-to-search screen.
- Schedule an Office@Hand meeting or audio conference from within Office 365 Calendar.

How it works

Microsoft Office 365 integration works with Google Chrome™ browser. Visit the Chrome Web Store to download the extension. Once installed, Office@Hand for Office 365 integrates contacts and capabilities from Office@Hand and Office 365.

Requirements

- Microsoft Office 365 integration is available to all Office@Hand customers.
- You must have an active Google account.
- Windows® XP (or later) or Mac OS X® 10.8 Mountain Lion (or later) operating systems are required.
- Chrome 30 (or later).
