21-State FOC Timeline - Access

While the intervals have been in place for a couple of years, the documentation had not been updated on Prime Access. This document supersedes other Special Access FOC interval information in the 13-State Interval Guide and 9-state BellSouth Guide to Interconnection.

Special Access-21 State

FOC Intervals- New Install /Change Requests

Project			ICB

Switched Access - 21-state

FOC Intervals- New Install /Change Requests

SERVICE	FOC INTERVAL

Feature Group A : (MW: 1-12 Lines; SE, SW, W: 1-24 Lines) MW: 13+ lines; SE, SW, W: 25+ lines	 1 day Non-Negotiated Negotiated
Feature Group B, C, and D: 1-239 trunks 240+ trunks	 5 days Non-Negotiated Negotiated

FOC Intervals- Disconnects

SERVICE	FOC INTERVAL
Feature Group A	1 day
Feature Group B, C, D	3 days

Note: The FOC Intervals confirm the telephone company has received the Application and finds that initial factors appear to show that it can meet the request for service. This does not include the due date, which will be negotiated.

Note: Updated 12/1/14 to make correction to Switched New Install/Change Requests, Feature Group A (FGA). Removed references to East Region to make 21-state. (br9557)
