AT&T Business

AT&T Internet Air® for Business 2.0

Reliable business internet for a low price, with our best wireless speeds[1] at your locations

Benefits

- Fast, reliable, and secure internet connectivity
- No overage charges
- Two simple plans to choose from
- Predictable monthly pricing with no price increase at 12 months[2]
- Seamless self setup with faster installation than cable
- Includes access to 5G/5G+ services powered by the AT&T 5G Standalone network, where available[3]

[1] In rare cases, if your usage is contributing to congestion on the network, AT&T will greatly reduce your speed for a minimum of 30 minutes.

[2] Excludes applicable taxes, fees, AutoPay and Paperless Bill discount, and promotional pricing, all of which are subject to change.

[3] Plans include access to 5G/5G+ services, if available at your designated service address. AT&T 5G/5G+ requires compatible device. Coverage not available everywhere. 5G+ is offered in limited locations in specific cities. Wireless technology varies by device. See att.com/5Gnetwork for details.

Get the connectivity your business needs

Internet connectivity is the lifeblood of your business. But what if wireline internet is not available where you do business? AT&T Internet Air for Business 2.0—a fixed wireless solution—can help you stay connected to your customers, suppliers, and employees. When paired with a compatible wireless router (sold separately) that's certified for use on the AT&T 5G Standalone network, AT&T Internet Air for Business 2.0 can provide internet connectivity at qualified service addresses, whether you're expanding locations, building network diversity, or supporting business-critical applications.

What is "fixed wireless"?

"Fixed wireless" refers to wireless devices and services that are used in fixed locations such as an office, pop-up location, or a trailer within a construction site. This contrasts with devices and services that are mobile, such as smartphones and tablets. Fixed wireless solutions are cost effective, can be installed quickly, and can be deployed in areas where fiber internet is not available or cost prohibitive.

Fast and reliable 5G wireless internet

AT&T Internet Air for Business 2.0 can be installed in minutes at your qualified service address and can help solve multiple business challenges. It can be used to establish a wireless internet connection in remote locations or when temporary access is needed. It can also serve as a backup connection when your wired connectivity is interrupted.

Built for business

Fast, reliable wireless internet that is built for business—A great solution for businesses looking to set up primary internet service or temporary connectivity at new or remote locations.

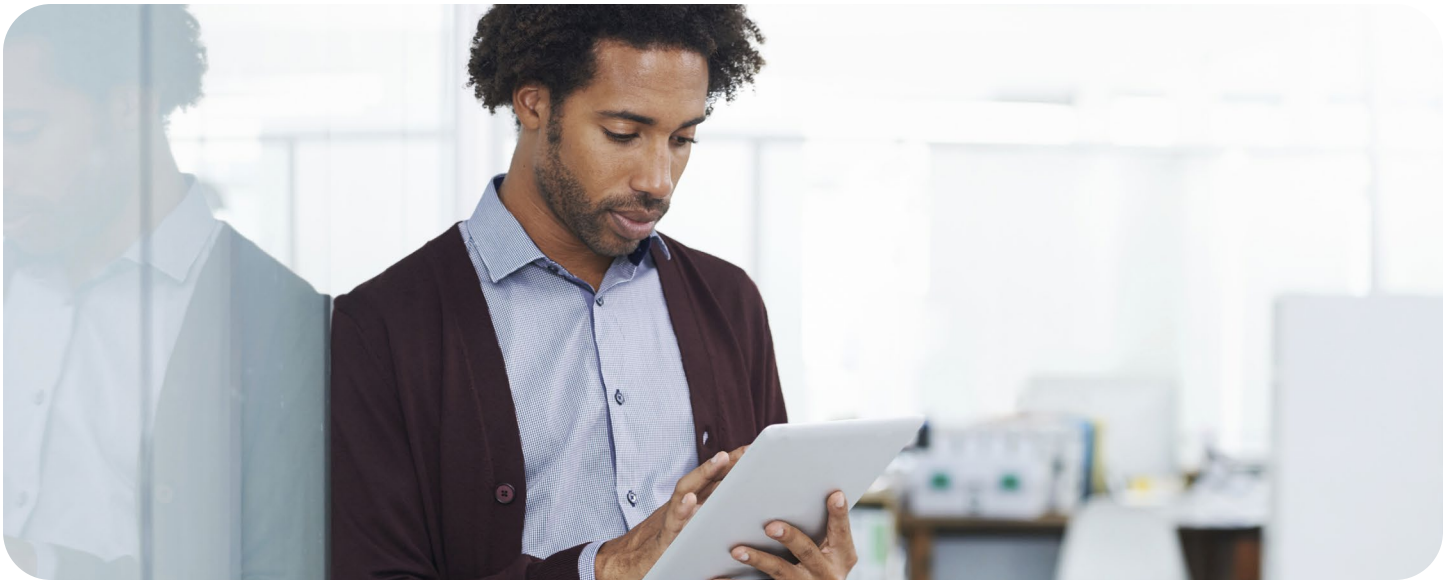

What is 5G Standalone ?—5G Standalone (5G SA) refers to a 5G network architecture that operates independently of existing 4G LTE infrastructure. Because it does not depend on 4G infrastructure, as our 5G SA network matures, it can deliver better latency, higher upload speeds, higher reliability, and improved network efficiency.

Flexible device options—Choose from compatible devices (sold separately), or bring your own device to create a diverse, flexible, and manageable business network connection using the AT&T 5G wireless network. Compatible devices must be certified for use on the AT&T 5G Standalone network. You can also purchase a compatible external antenna to boost the wireless reception of your router.

Fast and reliable fixed wireless internet

AT&T Internet Air® for Business 2.0 provides flexibility and an easily deployable solution for your connectivity needs:

- Great when fiber internet is not available.
- Predictable monthly bills and simple plans.
- Cost effective.
- Installs in minutes.
- You have the option to select the AT&T Internet Air for Business 2.0 Premium plan, which includes 250GB of AT&T Turbo for Business.[1]
  - Provides priority treatment for up to 250GB of eligible business data originating on and traveling over the AT&T-owned U.S. network, improving your network experience.

[1] After 250GB, AT&T may temporarily slow data speeds if the network is busy. Feature is applied to your line for the first 250GB of data per bill cycle, offering a prioritized experience for qualified data, but does not prioritize over all other traffic (which may receive a similar or higher priority level) or provide priority network access or preemption capabilities. Coverage not available everywhere. Other restrictions apply.

AT&T Internet Air® for Business 2.0 is available only at qualified service addresses. Prior to purchase, you will need to specify your desired service address so that we can check eligibility and confirm coverage and capacity availability on the local mobile network. **Service is only available at the designated service address.**

Keep in mind that AT&T Internet Air for Business 2.0 requires sufficient in-building coverage to work optimally indoors. Your building, the location of your router within your building, surrounding terrain, and many other factors can impact your in-building coverage. You should assess the in-building coverage at your desired service address prior to purchase.

Choose the AT&T Internet Air for Business 2.0 plan that's right for your needs.

Plan	Monthly service charge	Additional features
AT&T Internet Air for Business 2.0 Standard[1]	$65	**Unlimited data**
AT&T Internet Air for Business 2.0 Premium[1]	$105	**Unlimited data with 250GB of AT&T Turbo for Business:**[2] Provides priority treatment for up to 250GB of eligible data originating on and traveling over the AT&T-owned domestic network, improving your network experience. **Improved upload speeds:** Premium upload speeds are up to 25% faster than Standard.

Fees extra. Plans are eligible for a $5/mo. discount off the plan charge when enrolled in both AutoPay and Paperless Billing. Discount starts w/in 2 bills after enrollment.

Data restrictions: ***Standard plan:*** AT&T may temporarily slow data speeds if the network is busy. ***Premium plan:*** After 250GB, AT&T may temporarily slow data speeds if the network is busy. ***Both plans:*** In very rare cases, if your data usage is contributing significantly to congestion on the wireless network, AT&T will slow your speed to as low as 512 Kbps for a minimum of 30 minutes.

AT&T Internet Air for Business 2.0 limitations: Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to others. Plans are not intended for high bit rate applications and may not be used for server devices or host computer applications (such as continuous web camera posts or broadcasts), for high bandwidth applications, services or content that disproportionately and excessively contribute to network congestion (such as web broadcasting), or in any other manner prohibited by your Business Agreement (see prohibited network uses/activities in the Additional Service and Equipment Related Terms at att.com/abs-addtl-terms or comparable portion of your Business Agreement and the AT&T Acceptable Use Policy at att.com/aup).

[1] **Availability: Requires compatible router that is certified for use on the AT&T 5G Standalone network.** ***Standard plan:*** Requires a qualified residential or non-residential business service address; exclusions apply. ***Premium plan:*** Requires a qualified business service address; not available at residential business locations.

[2] Feature is applied to your line for the first 250GB of data per bill cycle, offering a prioritized experience for qualified data, but does not prioritize over all other traffic (which may receive a similar or higher priority level) or provide priority network access or preemption capabilities. Coverage not available everywhere. Other restrictions apply.

Ask an AT&T Business expert if AT&T Internet Air for Business 2.0 is available at your location. To learn more about how AT&T Internet Air for Business 2.0 can work for your business, visit att.com/aiab2plans.

ALL AT&T INTERNET AIR® FOR BUSINESS 2.0 PLANS: Available only to business and government customers with a qualified wireless service agreement that includes, without limitation, the Additional Service and Equipment-Related Terms found at att.com/abs-addtl-terms or comparable provisions (**Business Agreement**). Each plan is for one Corporate Responsibility User (**CRU**) line of service and requires a compatible wireless router (sold separately) that is certified for use on the AT&T 5G Standalone network. Plans offer a wireless internet access service that offers you the capability for acquiring or retrieving information from; generating, storing, transforming, processing, or utilizing information on; or making available information to other internet end points connected directly or indirectly via a fixed wireless connection to the AT&T network. **All wireless services are subject to the terms and conditions of your Business Agreement.** Plans are not intended for high bit rate applications and may not be used for server devices or host computer applications (such as continuous web camera posts or broadcasts), for high bandwidth applications, services or content that disproportionately and excessively contribute to network congestion (such as web broadcasting), or in any other manner prohibited by your Business Agreement (see the prohibited network uses/activities in the Additional Service and Equipment-Related Terms at att.com/abs-addtl-terms or comparable portion of your Business Agreement and see the AT&T Acceptable Use Policy at att.com/aup). **AVAILABILITY: Standard plan:** Requires a qualified residential or non-residential business service address; **exclusions apply. Premium plan:** Requires a qualified business service address; **not available at residential business locations.** To qualify for AT&T Internet Air for Business 2.0 service, you must have an approved service address in an AT&T-owned and operated coverage area that is eligible for AT&T Internet Air for Business 2.0. Service areas for AT&T Internet Air for Business 2.0 are determined by coverage and capacity availability on the local mobile network and may change from time to time. If your service is cancelled or terminated, you may not qualify to reactivate the service if your location is deemed no longer eligible. When used indoors, plans also require sufficient in building cellular coverage to work optimally. You should assess whether there is sufficient in-building coverage at your desired location prior to purchase. **SERVICE RESTRICTIONS:** You may not use AT&T Internet Air for Business 2.0 at any address other than your designated service address without AT&T's express prior written approval. **If you use AT&T Internet Air for Business 2.0 at a location other than your designated service address without such approval, the service may not operate as intended, and AT&T reserves the right to (a) move you to an available AT&T Wireless Broadband plan (see att.com/awbplans) and charge you the corresponding monthly amounts or (b) terminate the Service.** AT&T will notify you prior to taking one of these actions. You can request eligibility review/approval for a service address change by calling 800-331-0500 or by contacting your AT&T account representative. **PRICING:** Monthly pricing includes a monthly plan charge for wireless data service. **AutoPay and Paperless Bill Discount:** $5 discount is applied to the monthly plan charge when account is active and enrolled in both AutoPay and Paperless Billing. Discount starts within 2 bill cycles. Pay full plan cost until discount starts. **OTHER RESTRICTIONS AND FEES: Activation/upgrade fee** per line (up to $50) and deposit may apply. If you purchased a device that requires a service term commitment, an **Early Termination/Cancellation Fee** of up to $750 applies if you cancel service after the first 30 days and before your service term ends. See att.com/equipmentETF for details on what fee may apply for your device and how the fee is prorated over time. Credit approval may be required. AT&T reserves the right to suspend or terminate service to your account pursuant to the Business Agreement and/or place any noncomplying device on an appropriate plan. **ADDITIONAL AT&T FEES AND GOVT. TAXES:** Monthly AT&T fees apply per line and include Regulatory Cost Recovery Fee (up to $1.50), Administrative Fee (up to $3.49 effective August 5, 2026), Property Tax Allotment Fee ($0.20-$0.45) and other AT&T fees which are not government-required. Additional one-time Fees may apply. Govt. taxes are extra. See att.com/mobilityfees for more details. **DATA:** For use only at your designated service address. All AT&T service is subject to AT&T network management practices. See att.com/broadbandinfo for details. Tethering use is allowed with compatible devices. **DATA SPEEDS:** The speed of AT&T Internet Air for Business 2.0 service is very dependent upon the connection your wireless router can achieve with the AT&T mobile network. Many things can affect the availability and quality of your service including, but not limited to, your proximity to the cell site, the position of your device within your location, local congestion caused by use of network capacity by high numbers of users simultaneously using data intensive applications in the vicinity of the cell tower serving your designated service address, blockage of the signal between the designated service address and the cell tower (caused by objects such as buildings, foliage, etc.), AT&T network management practices, and weather. As such, **performance, experience, and speeds will vary and are not guaranteed.** To maximize performance, you should make every effort to position your router in an optimal position for your location. **5G SERVICE:** Requires a compatible 5G device and a designated service address in a 5G coverage area. Coverage not available everywhere. See att.com/5Gnetwork for details. **5G+ SERVICE:** Requires a compatible 5G+ device and a designated service address in a 5G+ coverage area. Coverage available only in limited locations in specific cities. See att.com/5Gnetwork for cities. Other restrictions apply. **COVERAGE:** Coverage is not available everywhere, subject to change without notice, and not guaranteed. **OFF-NET USAGE:** Domestic off-net (roaming) data usage may be at 2G speeds. Plans do not permit international roaming. **Excessive Off-Net Usage:** You get an off-net (roaming) usage allowance for data service (see your Business Agreement). If you exceed the allowance, your service(s) may be restricted or terminated. **MISCELLANEOUS:** Plans not available in all areas or in all sales channels. **Business Agreement Discounts:** Plans are not eligible for any CRU service discount described in your Business Agreement.

AT&T INTERNET AIR FOR BUSINESS PREMIUM 2.0 PLAN: Plan Pricing: $105/mo. **250GB OF AT&T TURBO FOR BUSINESS:** Quality of service network technology available for the first 250GB of data traffic per bill cycle to provide a prioritized (that is, enhanced versus "best effort") network experience for qualified business data. **Coverage:** Prioritized network experience is available only for qualified business data traffic originated on and traveling entirely over the AT&T-domestic 4G LTE/5G/5G+ networks (excluding microcells, AT&T Wi-Fi service and roaming partners' networks). **Limitations:** Feature does not (a) prioritize your qualified business data traffic ahead of all other data traffic (for example, any data traffic using a different prioritization feature that offers a higher quality of service), (b) provide priority access to available network resources, or (c) provide any preemption capabilities. AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with feature's intended use or the Business Agreement. **DATA RESTRICTIONS:** After 250GB of data usage in a bill cycle, then for all data usage for the remainder of the bill cycle, AT&T may temporarily slow data speeds if the network is busy. In addition, in very rare cases, if your data usage is contributing significantly to congestion on the wireless network, AT&T will slow your speed to as low as 512 Kbps for a minimum of 30 minutes.

AT&T INTERNET AIR FOR BUSINESS STANDARD 2.0 PLAN: Plan Pricing: $65/mo. **DATA RESTRICTIONS:** For all data usage, AT&T may temporarily slow data speeds if the network is busy. In addition, in very rare cases, if your data usage is contributing significantly to congestion on the wireless network, AT&T will slow your speed to as low as 512 Kbps for a minimum of 30 minutes.

Service, features, availability, pricing, terms, restrictions and conditions subject to change and may be modified, discontinued or terminated at any time without notice.

Why AT&T Business

See how ultra-fast, reliable fiber, protected by built-in security, and 5G connectivity give you a new level of confidence in the possibilities of your network. Let our experts work with you to solve your challenges and accelerate outcomes. Your business deserves the AT&T Business difference—a new standard for networking.
