AT&T SOUTHWEST REGION 5-STATE - Elimination of Network Service Codes SDSF, SDSG & SDSH

Effective April 28th, 2006, AT&T Southwest Region 5-State is discontinuing the following Network Service Codes in AT&T Southwest Region 5-State:

- SDSF (FGD w/DS0 CCC - fixed channel scheme used w/SS7)
- SDSG (FGD w/DS0 CCC - floating channel scheme used w/SS7)
- SDSH (FGD w/DS0 CCC - flexible channel scheme used w/SS7)

Existing circuits currently utilizing these services will be grandfathered, but no new service requests will be accepted.
