ADDITIONAL TERMS FOR FIRSTNET MOBILE-UNLIMITED PLANS: Unlimited plans do not pool. **SERVICE RESTRICTIONS**: In addition to other prohibited uses set forth in the Qualified Agreement, FirstNet Mobile-Unlimited Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections or fixed wireless access applications. For purposes of this restriction, fixed wireless access includes the use of a mobile device, router, gateway, modem, hotspot, or other equipment as a substitute for residential, commercial, or enterprise broadband internet service at a fixed location.. FirstNet Mobile-Unlimited plans are unavailable to subscribers in American Samoa. **FIRSTNET FUSION:** Requires FirstNet Mobile- Unlimited Standard with Fusion, FirstNet Mobile- Unlimited Enhanced with Fusion or FirstNet Mobile-Unlimited Enhanced with Fusion and Fusion Link plan for smartphone and compatible FirstNet Fusion-certified device. Fusion service requires download of FirstNet Fusion Mobile App or, for Fusion dispatch, use of FirstNet Fusion via Web Client. Download of the Mobile App or use of the service via Web Client constitutes acceptance of the FirstNet Fusion End User License Agreement and Terms of Service found at firstnet.com/fusioneula. Other restrictions apply; see FirstNet Fusion Mission Critical Push-to-Talk Service Guide found at https://serviceguidenew.att.com/sg_flashPlayerPage/FIRSTNET_FUSION for complete details.

ADDITIONAL TERMS FOR FIRSTNET MOBILE-POOLED PLANS: The monthly service charges of FirstNet Mobile--Pooled Plans for use with an unsubsidized device are discounted by $20 per month as compared to the standard monthly service charges of plans for smartphones use with a subsidized device; FirstNet Mobile-- Pooled Plans for feature phones and data devices are similarly discounted by $12 per month and $10 per month, respectively. The FirstNet Mobile—Pooled Plan discount will appear on Customer's bill. **Loss of Monthly Service Charge Discount:** If Customer upgrades to a subsidized smartphone, feature phone or data device, Customer will lose the applicable plan discount for that Agency Paid User. **POOLED DATA:** Within a single Billing Account Number (**BAN**), Agency Paid User lines activated on separate FirstNet Mobile--Pooled plans are combined to create a "Data Pool." Every billing cycle, each Agency Paid User first uses his or her plan's included data allotment, if any. If an Agency Paid User does not use all of the plan's Data Allowance, it creates an underage in the amount of the unused Data Allowance (**Under Usage**). If an Agency Paid User uses more than the plan's Data Allowance (e.g., any Agency Paid User with a 0 GB plan), the Agency Paid User incurs Data Overage charges in the amount of the excess data usage (Over Usage). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for Agency Paid User lines in the Data Pool and the total Over Usage amounts for Agency Paid User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among each Agency Paid User in the Data Pool with Over Usage, resulting in per line credits on Customer's invoice equal to each such Agency Paid User line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each Agency Paid User's Data Overage charges to determine each such Agency Paid User's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset each such Agency Paid User's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1000 KB of Over Usage (which means an allocation factor of 10%), then Customer's invoice will show, with respect to each Agency Paid User line with Over Usage, both (a) the Agency Paid User's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the Agency Paid User's Data Overage charges. Changing or migrating Agency Paid User lines to FirstNet Mobile - Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If Customer's organization's Foundation Account Number has multiple BANs, Customer may have more than one BAN specific Data Pool; however, Agency Paid User Lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each Agency Paid User line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of Agency Paid User lines in a Data Pool due to business needs and system limitations. **Data Overage:** If Customer exceeds the total amount of data in the Data Pool during a billing period, a pay-per-use rate of $0.000009536 per kilobyte (**KB**) will apply. 1,024 KB = 1 megabyte (**MB**); 1,048,576 KB = 1 gigabyte (**GB**). **FIRSTNET FUSION:** Requires FirstNet Mobile- Pooled for Fusion feature phone and compatible FirstNet Fusion-certified device. Fusion service requires download of FirstNet Fusion Mobile App or, for Fusion dispatch, use of FirstNet Fusion via Web Client. Download of the Mobile App or use of the service via Web Client constitutes acceptance of the FirstNet Fusion End User License Agreement and Terms of Service found at firstnet.com/fusioneula. Plan includes unlimited use of FirstNet Fusion service on the AT&T commercial wireless data network, the FirstNet Evolved Packet Core, and the supported networks of domestic roaming partners) in the domestic United States; such Fusion traffic will not be applied against the plan's included data allowance. All other data usage will be subject to the plan's data rates. Other restrictions apply; see FirstNet Fusion Mission Critical Push-to-Talk Service Guide found at https://serviceguidenew.att.com/sg_flashPlayerPage/FIRSTNET_FUSION for complete details.
