FIRSTNET®
Built with AT&T

M2M EXTENDED PRIMARY USERS

Exclusively for state and local government public safety entities and their Agency Paid users

FirstNet® Machine-to-Machine Pooled, Hi Cap Pooled, Backup and Radio over IP Plans*

for the FirstNet Evolved Packet Core

FirstNet Machine-to-Machine Pooled, FirstNet Machine-to-Machine Hi Cap Pooled, FirstNet Machine-to-Machine Backup, and FirstNet Machine-to-Machine Radio over IP Plans for extended primary users with optional First Priority®, which includes with data prioritization and preemption capabilities[1].

[1] Optional First Priority® requires a 4G LTE-compatible, FirstNet Capable device provisioned with an Approved Business Application using a FirstNet Trio Subscriber Identification Module (SIM card). Limited to Approved Business Application data traffic originated on and traversing over the AT&T 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core.

Wirelessly enable your qualified data-only devices, such as routers, scanners, and monitoring devices. Find the right wireless data plan for you.

FirstNet Machine-to-Machine – Pooled Plans: These pooling plans are best suited for qualified devices using machine-to-machine business applications that have low data usage.

Monthly service charge[1]				
1MB	**2MB**	**5MB**	**10GB**	**50MB**
$4.15	$4.75	$5.80	$6.80	$12.40

Taxes, fees and other monthly charges extra. Data Overage: Pay-per-use rate of $0.000976/KB applies.

[1] Pooling plans offer data pooling for qualified lines in a single Billing Account Number or single Foundation Account Number. Restrictions apply. See below for pooling details..

FirstNet Machine-to-Machine – Hi Cap Pooled Plans[1]: These pooling plans are best suited for qualified devices using machine-to-machine business applications that have high data usage.

Monthly service charge[2]				
1MB	**2MB**	**5MB**	**10GB**	**50MB**
$20.00	$25.00	$50.00	$80.00	$150.00

Taxes, fees and other monthly charges extra. Data Overage: Pay-per-use rate of $0.000976/KB applies.

[1] FirstNet Machine-to-Machine Hi Cap Pooled Plans do not pool with FirstNet Machine-to-Machine Pooled Plans.

[2] Pooling plans offer data pooling for qualified lines in a single Billing Account Number or single Foundation Account Number. Restrictions apply. See below for pooling details..

FirstNet Machine-to-Machine – Backup Plan:

This non-pooling plan is best suited for qualified devices using machine-to-machine business applications that have variable usage. The plan provides a low-cost solution in low-usage months and data overage protection in the occasional higher-usage month.

Monthly service charge[1]
20MB
$24.75/month

Taxes, fees and other monthly charges extra. Data Overage: Pay-per-use rate of $0.000976/KB applies.

[1] Combined monthly service related charges (i.e., the Monthly Service Charge plus any data overage charges) are capped at a maximum of $129.99 per month. If a line hits the cap for three consecutive months, AT&T reserves the right to migrate the line, without notice, to the 5GB FirstNet Mobile -Pooled Plan for data-only devices and charge you the applicable monthly fees.

FirstNet Machine-to-Machine – Radio over IP (RoIP) Plan:

This non-pooling plan is a Radio over IP (RoIP) gateway solution that allows a Land Mobile Radio (LMR) channel to connect to a predefined "group" of Enhanced Push-to-Talk ("EPTT") users.

Monthly service charge
Unlimited; only for use as a gateway solution for a group of EPTT users
$40.00/month

Taxes, fees and other monthly charges extra.

FirstNet Machine-to-Machine – High Power User Equipment (HPUE) Plan:

This non-pooling plan requires the use of a FirstNet Ready™ HPUE device.

Monthly service charge
Unlimited; only for use with High Power User Equipment
$40.00/month

Taxes, fees and other monthly charges extra.

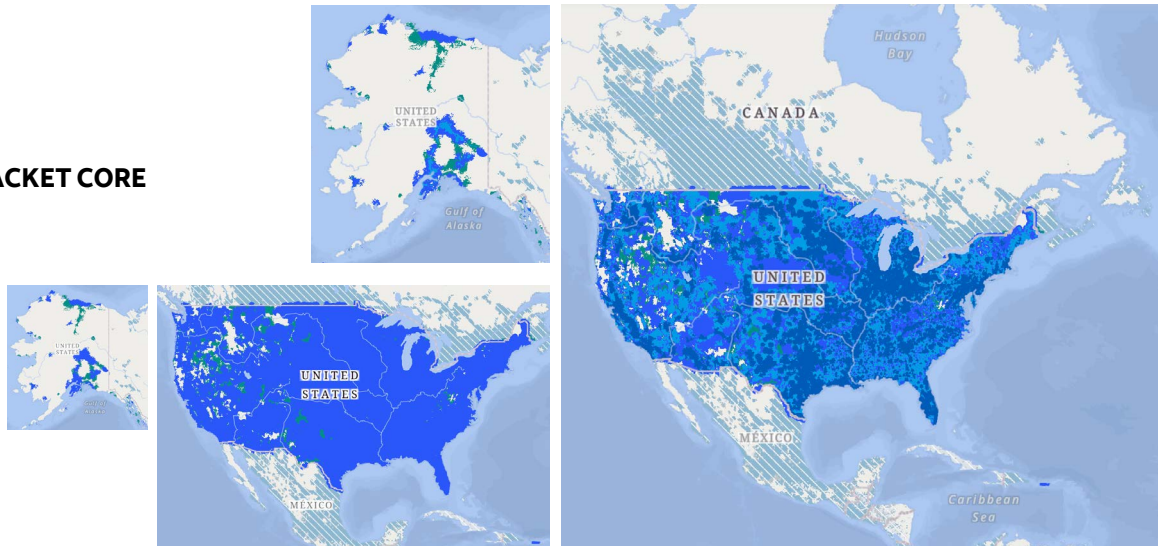

First Priority®		
	Less than 250MB	**250MB and greater**
First Priority®, per agency paid user line, per month	$2.00/month	$7.50/month

Taxes, fees and other monthly charges extra.

*Each qualified device activated with a FirstNet Machine-to-Machine Plan must have a primary place of use ("PPU") within the FirstNet network coverage area within the U.S., Puerto Rico and U.S. Virgin Islands. The FirstNet network coverage area includes the AT&T 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core.

IMPORTANT TERMS: FIRSTNET EVOLVED PACKET CORE

Map depicts an approximation of outdoor coverage. Actual coverage may differ. Coverage subject to change at any time without notice. Coverage and service not available everywhere. For most current coverage info, check firstnet.com/coverage.

COVERAGE

5G/5G+ | Band 14 | 4G (international)

FIRSTNET MACHINE-TO-MACHINE POOLED, FIRSTNET MACHINE-TO-MACHINE HI CAP POOLED, FIRSTNET MACHINE-TO- MACHINE BACKUP, & FIRSTNET RADIO OVER IP PLANS FOR STATE AND LOCAL GOVERNMENT: Require a FirstNet Capable device provisioned with a FirstNet Trio SIM card. **Eligibility:** The above FirstNet Machine-to-Machine Pooled, Hi Cap Pooled, and Radio over IP Plans are available only to state and local government Public Safety Entities that are Extended Primary Users having a qualified Government Agreement. The plans are intended for use solely by Agency Paid Users. **Definitions: Public Safety Entities** are entities authorized by the First Responder Network Authority to obtain services under the FirstNet program. **Primary Users** are those Public Safety Entities that act as first responders, i.e., those entities whose primary mission and job function is to provide services to the public in the area of law enforcement, fire protection, emergency medical services, emergency management and emergency call (911) dispatching. **Extended Primary Users** are those Public Safety Entities that are not Primary Users, but who may be called upon to support Primary Users during the time of an emergency or its aftermath. **Agency Paid Users** are individual employees and contractors of a Public Safety Entity who are granted access to a FirstNet Mobile plan for which the Public Safety Entity is financially responsible. A **Government Agreement** is a qualified AT&T wireless service agreement between AT&T and a state and local government Public Safety Entity eligible to participate in the FirstNet program. Plans are subject to the terms of the Government Agreement and, when incorporated into the Government Agreement, the FirstNet Solution Service Guide. **FirstNet Evolved Packet Core Capabilities:** See firstnet.com/features for the current capabilities of the FirstNet Evolved Packet Core . **Pricing:** Prices are for service only. **Discounts:** Discounts set forth in the Government Agreement do not apply to the FirstNet Machine-to-Machine Plans. **Qualified Devices:** Sold separately. **Devices must be FirstNet Capable. See firstnet.com/devices for current list of FirstNet Capable devices.** Plans may only be used for an Agency Paid User line with a qualified data-only device, such as a router, scanner or other qualified device, using a machine-to-machine business application needing wireless data communication between the device and the customer's data center. **Each qualified device activated with a FirstNet Machine-to-Machine Plan must have a primary place of use ("PPU") within the FirstNet network coverage area within the U.S., Puerto Rico and U.S. Virgin Islands ("Domestic Coverage Area" or "DCA"). International Roaming: Monthly plan prices do not apply to data usage while roaming.** If roaming outside the DCA, other U.S. territories, Canada and Mexico, an international data package must be added. Not all devices may be eligible for international roaming service. All FirstNet Machine-to- Machine Plans are provisioned with the International Roaming Blocking Feature. Customer must remove the feature to roam in international locations other than Canada and Mexico. There is no charge to remove this feature. **Service Compatibility: Some** plans may not be compatible/combined with certain products, features and other services, including without limitation AT&T Enhanced Push-to-Talk service and messaging packages. **Invoicing:** Plans require consolidated invoicing.

DATA: Included data allowance ("Data Allowance") for use only within the DCA and while roaming in other U.S. territories, Canada and Mexico. **Data Overage:** If Customer exceeds the total amount of data in its plan during its billing period, additional data will automatically be provided at the pay-per-use rate specified for Customer's plan. 1,024 kilobytes (KB) = 1 megabyte (MB); 1,048,576 KB = 1 gigabyte (GB). FirstNet Machine-to-Machine Radio over IP Plans do not have a Data Allowance and are not subject to overage charges.

FirstNet Machine-to-Machine Backup Plans: Backup plans do not pool.

FirstNet Machine-to-Machine Pooled and Hi Cap Pooled Plans: Pooling: Within a single Billing Account Number ("BAN"), Agency Paid User lines activated with a qualified FirstNet Machine-to-Machine Pooled Plan ("Pooled Plan") or Machine-to-Machine Hi Cap Pooled Plan ("Hi Cap Pooled Plan") may be combined to create a "Data Pool". Each Data Pool can only consist of either Pooled Plans or Hi Cap Pooled Plans. Pooled Plans cannot reside in the same Data Pool as Hi Cap Pooled Plans. The Data Pool is limited to FirstNet Machine-to-Machine Pooled Plans or Hi Cap Pooled Plans; other telemetry plans are excluded. Every billing cycle, each Agency Paid User line first uses its Pooled Plan's or Hi Cap Pooled Plan's Data Allowance. If an Agency Paid User line does not use all of its Data Allowance, it creates an underage in the amount of the unused Data Allowance ("Under Usage"). If an Agency Paid User line uses more than its Data Allowance, the line incurs Data Overage charges in the amount of the excess data usage ("Over Usage"). At the end of the billing cycle, AT&T calculates the total Under Usage and Over Usage amounts for Agency Paid User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among Agency Paid User lines in the Data Pool with Over Usage, resulting in per line credits on Customer's Invoice equal to each such Agency Paid User line's Data Overage charges. Any remaining excess Under Usage amount will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount, then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each Agency Paid User line's Data Overage charges to determine each such line's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset each such line's Data

Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1,000 KB of Over Usage (which means an allocation factor of 10%), then Customer's invoice will show, with respect to each Agency Paid User line in the Data Pool with Over Usage, both (a) the line's Data Overage charges at the specified Data Overage rate, and (b) a bill credit equal to 10% of the line's Data Overage charges. Migrating Agency Paid User lines to different Pooled or Hi Cap Pooled Plans during a bill cycle may result in one-time prorations or other impacts to the credit calculation. Customer may have more than one Data Pool within a FAN or BAN, but Agency Paid User lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each Agency Paid User line can only be p art of one Data Pool at a time. AT&T reserves the right to limit the number of Agency Paid User lines in a Data Pool due to business needs and system limitations.

FirstNet Machine-to-Machine Radio over IP Plan: Plan does not pool. **Limitation:** Plan is intended for use as a Radio over IP (RoIP) gateway solution that allows a Land Mobile Radio (LMR) channel to connect to a predefined "group" of Enhanced Push-to- Talk ("EPTT") users. **Exclusions**: FirstNet Machine-to-Machine - Radio over IP Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to- machine connections.

FirstNet Machine-to-Machine High Power User Equipment Plan: Plan does not pool. **Limitation:** Requires the use of a FirstNet Ready™ HPUE device. **Exclusions**: FirstNet Machine-to-Machine – High Power User Equipment may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine- to-machine connections. **FIRST PRIORITY®:** Feature provides prioritization of data and priority access to available network resources. **Requirements:** Agency Paid User Lines must have a qualified FirstNet Machine-to-Machine Plan and a 4G LTE-compatible, FirstNet Capable device provisioned with an Approved Business Application. **Pricing:** $2.00 per Agency Paid User line per month. Surcharge not prorated.

Approved Business Applications: Approved Business Applications are limited to applications directly related to the primary missions of Public Safety Entities. These include applications provided under the FirstNet agreement, including the App Catalog, and specifically exclude consumer oriented applications such as, but not limited to video streaming. Plans must be selected which support the type of application, such as Machine to Machine Plans for machine to machine applications, and are subject to the terms of those plan. To help maximize the performance of the network for all public safety users, Approved Business Applications utilizing video should be streamed at a resolution of 480p. Use of plans intended for Approved Business Applications exclude continuous unattended mobile video transmission applications. **Limitations:** Feature is available only in the DCA (excluding other U.S. Territories) and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T domestic 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core. Feature may not be used for Internet traffic other than Customer's Approved Business Application data traffic. **Data Prioritization:** Feature does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic; other traffic may have the same or higher prioritization. **Priority Access:** Feature provides priority access to the available network resources of the AT&T domestic 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core. **Preemption Capability:** Not available to Extended Primary User Public Safety Entities other than in connection with the use of First Priority® Uplift Management by Primary User Public Safety Entities. **First Priority®** Uplift Management: Provides Primary User Public Safety Entities' designated and authorized communications managers the ability to modify the relative priority and preemption capabilities of the Authorized Users of both Primary User and Extended Primary User Public Safety Entities provisioned with First Priority®. Uplifts may be performed for a minimum duration of 1 hour with a maximum of 48 hours for a given event through the use of the First Priority® Uplift Management portal. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with applicable terms and conditions; the Government Agreement; or Service Guide (if applicable).

GENERAL WIRELESS SERVICE TERMS: Subject to applicable Government Agreement. Service is not for resale. Other restrictions apply and may result in service termination. If Customer purchased a subsidized device that requires a term commitment, an **Early Termination/Cancellation Fee** applies if Customer cancels Agency Paid User service after the first 30 days and before the Agency Paid User Line service term ends. See att.com/equipmentETF for details on what fee may apply to device and how the fee is prorated over time. Activation/upgrade fee per line (up to $50) and deposit may apply. Credit approval may be required. AT&T reserves the right to suspend or terminate service to Customer's account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan.

ADDITIONAL AT&T FEES AND GOVT. TAXES: Monthly AT&T fees apply per line and include Regulatory Cost Recovery Fee (up to $1.50), Administrative Fee (up to $3.49 effective August 5, 2026), Property Tax Allotment Fee ($0.20-$0.45) and other AT&T fees that are not government-required. Additional one-time Fees may apply. Govt. taxes are extra. See att.com/mobility fees for more details. **Pricing, fees, promotions, options, restrictions and terms subject to change and may be modified, discontinued or terminated at any time without notice. Invoicing Limitation:** FirstNet plans are not eligible for combined (wireless/wireline) billing. **Coverage:** Coverage map shows high level approximation of areas included in and out of plan. For the most current coverage info, check firstnet.com/coverage. Coverage may include areas served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Coverage is subject to change without notice.
